SUSPENSION OF GOV. WALTON IS HELD CERTAIN

House of Oklahoma Legislature
Spends Day Patiently
Listening to Reading

VOTE WILL FOLLOW

Considered Certain that House
Will Sustain at Least Some
of the Charges

Oklahoma City, Oct. 23.—A full day of sitting patiently listening to the voluminous transcript of testimony on which 22 charges against Governor J. C. Walton are based was today's prospect in today's session of the lower house of the Oklahoma legislature, with voting on impeachment to follow.

Two clerks, reading alternatively, will require approximately 24 hours to complete the oral presentation of charges of incompetency, moral turpitude, wilful neglect of duty and corruption in office.

It appeared likely early today that a vote would not be taken before tomorrow, although some pointed out that a night session might bring the formalities to an end tonight.

The prediction was made freely that the house will vote overwhelmingly to press some if not all of the charges, thus bringing them before the senate which first would pass on their admissibility before organizing as a trial body.

Opposition to the impeachment action is said by political observers to be negligible.

All of the 22 specific charges contained in the house bill of impeachment will be voted upon separately, and one being adequate grounds on which to bring the governor to trial. It is considered certain that Governor Walton will be suspended from office during the period of his trial if any of the charges are sustained by the house.

FARMERS GO TO NEW SALEM

McLean County Men in the
Market for Holsteins

Four farmers of McLean county and A. L. Norling, county agent of the county, passed through Bismarck this morning on their way to New Salem to investigate and purchase Holstein dairy cows if they found what they were seeking. The farmers were E. Linquist, the Martin Evin of Turtle Lake and E. N. Heald and J. C. Nelson of Mercer. Recently a bunch of Holstein cattle was shipped to Ryder and part of the shipment went into McLean county, Mr. Norling said, and 10 Holsteins recently were shipped into Max for distribution to McLean county farmers.

A wide-spread interest in dairying found throughout the county, he said.

BANKER TURNS BARBER IN U.S.

Prefers it to Banking in Jugo
Slavia Where Its Unsettled

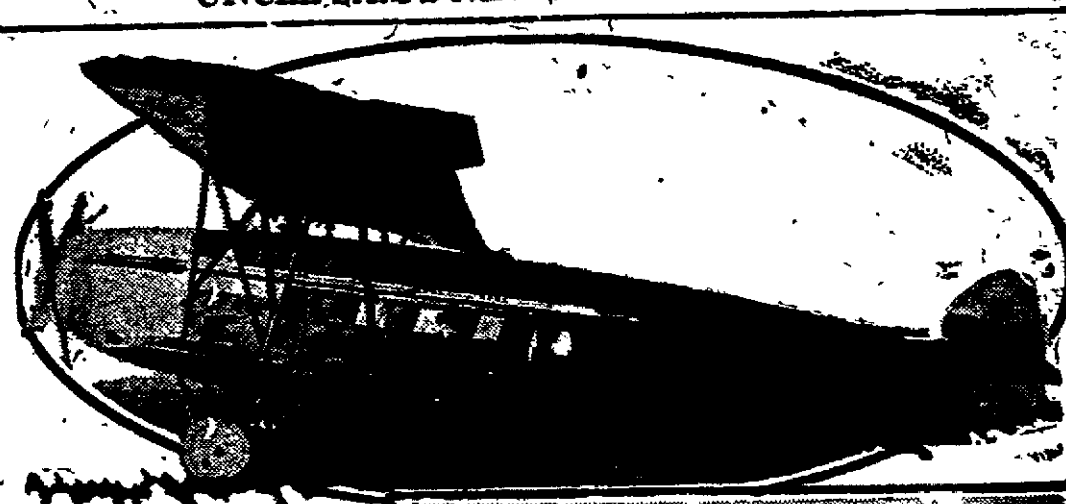

San Francisco, Oct. 23.—John Kerment of this city prefers to be a barber in the United States than a banker in Jugoslavia, and he proved his statement by giving up the vice presidency of four banks in Jugoslavia and returning to San Francisco, where he is again manipulating a razor.

Kerment, better known as "John the Barber," left here three years ago for his native Jugoslavia. He carried with him \$11,000 in American money, which he exchanged for 2,000,000 crowns. Having become a "millionaire" overnight, John started a bank at Vrnjaca. The institution, capitalized at 5,000,000 crowns, grew and three branches were added. The San Francisco barber became vice president of the group, being in charge of the branch at Zargat, Croatia.

"We made money, and while I like the banking business better than the barbering business, I don't like the unsettled condition of the country," explained the barber-banker on his return here. "Everybody in Jugoslavia wants to be a general and shoot somebody. Nobody wants to work. Every morning I would shake my head to see if it was still on my neck."

"After I had been there for several years I learned that I would lose my citizenship in America if I stayed any longer. I wouldn't lose that for a dozen banks in Europe, so I quit and came back to San Francisco to re-enter the barbering business."

AMENDMENT IS PROPOSED BY ROAD BODY

Proposal Made to Put Highway
Matter Before People
At June, 1924, Election

The North Dakota Good Roads Association, through its president, J. J. Moe, has submitted to the Secretary of State's office a proposed constitutional amendment, to be submitted to the voters in the June 1924, primary.

The proposed amendment, for which signatures will be sought to place it on the ballot, embodies the proposals laid before the legislature last winter. The amendment would provide a state highway system to be nearly unchangeable, except from county to county, "settled" from a state highway fund, create a three-member highway commission and refund to counties money spent on federal aid projects prior to January, 1918.

PLACE CITY ON CASH BASIS

Ordinance Authorizing Issuance of \$40,000 Certificates Advanced

The city commission, in meeting last night, decided to place the city on a cash basis by the sale of certificates of indebtedness, as provided by the law of the last legislature. An ordinance authorizing the issuance of \$40,000 of 7 percent certificates of indebtedness, payable April 1, 1925, went through its first reading last night.

The ordinance recited that uncollected taxes amount to \$80,000 for 1922 and prior years, and that money on hand is insufficient to meet the expenses under the new budget. It recites that uncollected taxes exceed the amount of warrants outstanding.

The city recently voted to issue \$40,000 funding bonds to take up outstanding warrants. The sale of certificates of indebtedness will enable the city to pay its bills in cash.

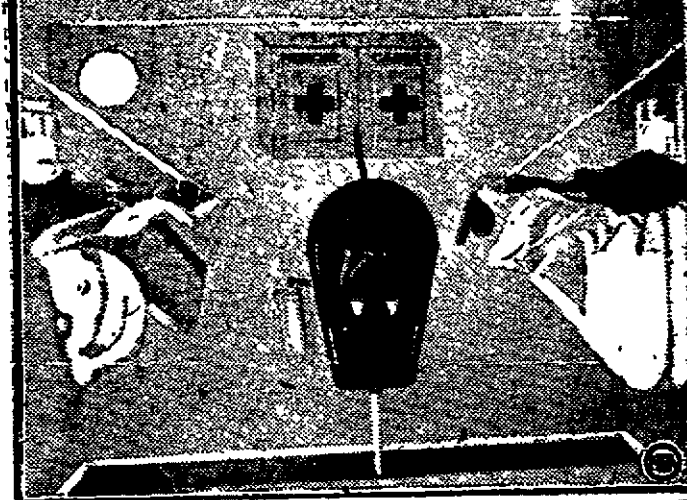

The law of the last legislature provided for the short-time borrowing method in anticipation of tax payments, and provided that warrants could not be issued unless an effort had been made to sell certificates.

Organize To Care For City's Poor

New York, Oct. 22.—The citizens of Scarsdale, N. Y., a small residential village on the Hudson River, have formed an organization known as the Scarsdale Foundation "to receive and disburse gifts by will or otherwise for public educational, charitable or benevolent purposes."

The foundation, which will aid all residents of the village who have run up against financial difficulties, was started by a fund collected for the purpose of caring for the wife and children of Sergeant John J. Harrison, a soldier who lost his life in the World War. Later a committee of citizens was formed to establish a fund for the relief of such cases as must arise.

In order to guard against the possibility that the foundation might meet the same fate as the Sailors' Snug Harbor and other benevolent funds of the sort, whose usefulness has in a measure been nullified, the trustees have required that the trustees be appointed with full discretion in the application of the funds whenever changed conditions render the original purpose impossible of fulfillment. This clause will do away with the chance of the fund's becoming tied up as was that one with a Boston fund formed for the purpose of caring for sailors who had been captured by pirates.

LLOYD GEORGE THANKS U. S.

Expresses Gratitude For Part
Played in Winning of War

Indianapolis, Oct. 23.—A message of gratitude to America for the part she played in the world war was delivered here, the National Headquarters of the American Legion, by David Lloyd George, the wartime premier of Great Britain. Speaking tonight to a great audience in Cade's Tabernacle, the man who bore such an outstanding part of the war, with lofty eloquence coupled with his message an appeal that the United States and Great Britain continue to cooperate for peace.

At the same time in discussing conditions in Europe, the former premier urged "the Lincoln touch, conciliation not vengeance." Referring to Germany he said:

"Having overthrown the military autocracy that menaced us—it's a broken creature, lying on the plain of central Europe at this moment—let's don't begin to destroy a nation. Let's have reconstruction make peace in the world. Vengeance is a poor thing; it breeds vengeance; it propagates its kind. Let's have peace, conciliation, wisdom. Let's have the great doctrine of Abraham Lincoln in Europe again."

The wartime premier delivered his address as the guest of the State of Indiana before an audience which warmed up for the occasion by singing the old war songs supported by a chorus of several hundred. Seated upon the platform were men prominent in the state and city, including Governor McCray who sat with Governor Neff of Texas, and United States Senators Watson and Kallstrom.

Last of Trio of Aged Men Dies

Carrington, Oct. 23.—Demed his wish to live to be a hundred T. M. Page, old time resident of this vicinity, died at the age of 94. He had resided in Foster county for 33 years and clerk of the district court for many years. His death removes the last of a trio of aged men that were especially dear to the Masonic lodge—Judge Joshua Lemert, George E. Estabrook and Mr. Page. The wife of the deceased died in 1909 and three children survive him. Burial was at Carrington.

LOCAL MAN SEES GERMAN CHILDREN'S HOMES WITH WIFE OF PRES. EBERT

Pictures of North Dakota and the story of his trip to Europe furnished the subject of an address by Jacob Rothschilder in Bismarck before a large audience in Elizabeth, New Jersey, on October 17. A copy of the New York Staats Zeitung, received in Bismarck, speaks of the meeting in part as follows:

"The stereoscopic views of pictures from Europe and North Dakota furnished by the state immigration department were shown by Jacob Rothschilder in Federal hall in Elizabeth, N. J. last Saturday evening. The hall was crowded to its utmost capacity when Mr. Rothschilder, president of the North Dakota Russian Relief Society, described the aim and purpose of his trip to Russia and praised the generosity of his fellow citizens of North Dakota by whose aid it was possible for Mr.

VETS' BUREAU MONEY WASTED

Washington, Oct. 23.—The special senate committee investigating the Veterans Bureau was told today by Director Hines that on one occasion the Bureau paid \$64,000 for a hospital at Livermore, California, and then found that the drawings submitted were unsuitable.

TWO CASES ARE APPEALED

Sewer Assessment Case Is
Taken to the Supreme
Court

The Bismarck Homebuilders Company has appealed to the supreme court the case involving the assessment by the city of many lots in the Plannery and Weatherby Addition for sewer purposes. The case has been in the courts for a considerable time.

The company claimed that the lots were not benefited by the surface storm sewer, while the city held the lots were benefited although the sewer in the east part of the city, did not reach up to the addition. The company sued to set aside the assessments and the city won in the district court.

The case in which Judge Jansson held that the county commissioners were without authority to employ F. O. Hellstrom on a contingent basis in work of placing escaped taxes on the rolls also has been appealed to the supreme court.

Ancient Omen Tells of Bloodshed

Geneva, Oct. 23.—The "blood of the Burgundians" has appeared again on the water of Lake Morat, near Neuchâtel, portending more trouble for Europe, if ancient legend is to be believed.

The reddening of the water of this lake is caused by the flowering of an aquatic plant, which, however, blooms very rarely. The phenomenon was seen in 1476, when 38,000 Burgundians under Charles the Bold were defeated near the lake by the Swiss. The last time the waters were red was in 1914, just before the outbreak of the world war, a circumstance said to justify the old saying: "When blood is seen on Lake Morat there will be bloodshed in Europe."

Rothschilder to dry many tears. Mr. Rothschilder showed his travels through Germany where the children's homes of Berlin, were visited by him, accompanied by Mrs. Ebert, wife of the president of the German Republic, and Mrs. Veeks. Here the children were supplied with clothing and other necessities. Mr. Rothschilder also described his journey to Poland, Russia, Austria, Hungary, and Romania, the former home of Mr. Rothschilder.

The article added that Mr. Rothschilder's address was applauded. He expressed appreciation of the assistance various organizations had given him. He closed by saying that the suffering, poverty and distress in all parts of Europe cannot be described, and that America alone is in a position to help the people in their distress.

CANADA BUYS SEED CORN IN NORTH DAKOTA

Bismarck Area Producing
Best Corn for Seeding Purposes in the Northwest

8,000 BUSHEL SHIPPED

Conditions in Section Make it
Natural Place for Raising
Seed Corn

Recognition of the fine quality of corn being grown in the Bismarck area is found in the inquiries and purchases of corn for seed by individuals and firms in Canada, the Red River Valley of North Dakota and western Minnesota. The demand for the seed corn has been growing as knowledge that the best corn in the Northwest is raised in western North Dakota has been spreading.

A Brandon, Canada, seed house has purchased 8,000 bushels of seed corn from O. H. Will and Company of Bismarck. The same house purchased about half this amount last year. North Dakota seed corn has been found to be the best for use in that section of Canada. Purchases also have been made in this section for the Red River Valley, one buyer from that section declaring that western North Dakota is and will always be the best place in the Northwest to obtain seed corn.

George P. Will of this city today expressed the opinion that western North Dakota would be permanently the best source of seed corn for the state, Canadian provinces to the north and western Minnesota.

The elevation of this section, the normally dry falls, the clear, dry air and sunny weather gives the corn a better chance to mature and dry than in the lower altitudes, he said.

There is not and cannot be, of course, he said, an unlimited market for seed corn, but the fact that this section can produce corn of the best quality and produce good yields augurs well for the future of western North Dakota as a corn raising section.

The greatest need at this time, he said, is a market for feed corn, and efforts now are being made to develop this market.

Corn this year is of excellent quality, ripe, is drying rapidly, is plump and is yielding well, Mr. Will said. A farm living southeast of Bismarck has raised 50 acres of corn for seed purposes, using the best possible seed and taking good care of it. He has taken over 2,000 bushels of corn from the field.

The average yield per acre has been increased materially in the last ten years through increased improvement in the selection of seed and in the more important care in planting and cultivation, Mr. Will said.

ARRIVE FOR S. A. REVIVAL

Col. Brengle and Capt. Lord
To be in Charge of
Meetings

Col. S. Brengle and Capt. Lord of the Salvation Army arrived in Bismarck today where they will be in one of revival services for one week. The series of meetings will commence tonight at 8 o'clock at the local Salvation Army chapel.

The colonel is assisted by Capt. Lord, as colonel, officers from Mandan and Dickinson and local workers.

Col. W. Barker, head of the Salvation Army work in North and South Dakota and Minnesota and Adj. Chesman, the divisional secretary, will arrive to assist in the services Saturday and Sunday. The Sunday night service will be held at the Bismarck theatre.

Sunday at 8 p. m. a service will be conducted in the state penitentiary, Col. Brengle will speak.

MANY ADMITTED TO STATE SCHOOL

Dickinson, Oct. 23.—Many persons are being received at the state school for feeble minded at Grafton since the completion of the new building some time ago, according to E. B. Murphy of Bismarck. For many months there has been a long waiting list of persons who have been committed to the school at Grafton but for lack of housing room it has been impossible to admit them. With the completion of a new building the waiting list will be cut materially.

ENCOURAGES BOY EMIGRANTS
Melbourne, Oct. 23.—The new government is about to adopt a policy of taking over private estates under compulsion, if necessary, to facilitate the establishment of temporary training farms for emigrants. New arrivals will be allotted holdings of this land, and the immigration of boys to Australia is to be particularly encouraged.

DRY AGENT, MIND RESTORED BY BLOW, FINDS HE HAS TWO "WIVES"

Arthur Whitney, Former North Dakotan; Must Decide What
His Future Relations Will Be Within the Next Ten
Days—Recovers From Partial Aphasia After
Fight With Beer Robbers

St. Cloud, Minn., Oct. 23.—Inter-est centered here today on Mrs. Luella Whitney, wife of Arthur E. Whitney, federal prohibition agent, who was restored to his real self last night by a blow on the head received in a fight with beer robbers at New Munich Wednesday night last after five years of partial aphasia.

In eight days Mrs. Whitney must decide whether she will take her husband back to her home with his two sons at Grafton, N. D. or divorce him, for proceedings have reached a stage that unless further action is taken the couple will cease being husband and wife November 1.

Whitney, a veteran of the World War, was gassed three times while overseas 27 months and returned with his past obscured. In New York he met an Escanaba, Mich. girl, now known as Mrs. Ann Whitney, and they lived together in St. Paul. Mrs. Luella Whitney claimed that Whitney and Ann Whitney were married three weeks ago.

Last night when Whitney recovered consciousness for the first time he was the Arthur Whitney of pre-war times loving his wife Luella Whitney and professing ignorance of Ann Whitney.

The only thing he recalled in five years was that he had been a prohibition agent. He did not remember how he was hurt.

Whitney formerly also lived in Minot, North Dakota. A Mandan man who declared he knew Whitney said that he was in difficulties while in the army in France.

MINOT GIRL NURSE
Minot, Oct. 23.—Miss Agnes Balrud, daughter of Mr. and Mrs. Andrew Balrud, has written to relatives here stating she was being sent to St. Cloud as a nurse at the request of prohibition officials.

She refuted assertions that she and Whitney were sweethearts, declaring they were merely friends. Their acquaintance extended from the time Whitney lived in Minot. Her father is a restaurant proprietor.

McKenzie Case Is Postponed

The case in which the state of North Dakota sought to claim that Alexander McKenzie estate should pay an inheritance tax in North Dakota on more than the real property owned in the county, scheduled for hearing before County Judge J. C. Davies, has been postponed by agreement of parties. It probably will be heard December 19.

MINERS WILL HELP TO PAY FOR ROAD WORK

Proposed to Surface Highway
Leading from Wilton East,
Two and One-Half Miles

Cooperative rebuilding of the road from Wilton two and one-half miles east was discussed by the board of county commissioners, in session here today.

Commissioner Oscar Bachman proposed the plan and urged participation by Burlington county, declaring the arrangement would effect a big saving.

An offer from the Washburn Lignite Coal Company, a company and from miners employed there as individuals to raise a considerable sum, probably \$1,000, was reported. Citizens of Wilton are willing to contribute some money and it is proposed to have McLean and Burlington counties join in the expense.

Scoria would be used on the road. The matter was under consideration by the commissioners this afternoon.

Bank Continues Its Program of Diversification

Ryder, Oct. 23.—J. P. Peterson arrived Wednesday evening with a carload of Holstein cattle, consisting of five registered and 17 high grade milk cows, which he bought for the First National Bank. This herd represents some of the finest dairy stock to be found in the nation's foremost dairy state, Wisconsin. They were shipped from River Falls and the bank is distributing them to the farmers in the vicinity of Ryder. The bank is anxious to devote from the gambling method of farming to the steady income that is obtained through the milking of good cows.

This is the second shipment of good milk stock that the bank has imported. Last summer they imported a carload of pure bred Guernsey cows, which were distributed in a like manner.

The importing of better milking stock is in strict coherence with the bank's diversification program and proves that Cashier Christiansen is a man of ability to carry out his plans.

MILL BREAKS EVEN

Grand Forks, N. D., Oct. 23.—Since Aug. 1 the North Dakota state mill and elevator has been "breaking even or better" and during the September, earnings were sufficient to take care not only of the operating expenses but also of interest on the mill bonds. C. E. Austin, manager of the project declared in an address before the "Y men's club," organization of the Y. M. C. A.

PURCHASES BONDS

St. Yaten, Oct. 23.—The First State Bank of Fort Yates has purchased \$2,000 worth of certificates of indebtedness of the Fort Yates school district. The district will soon be nearer a cash basis, as the proceeds from the sale of the \$27,000 refunding bond issue will soon be on hand.

BERLIN SAYS SEPARATISTS ARE LOSING

Bands of Communists Reported
to Have Made Attacks
on Hamburg Police
Station

Berlin, Oct. 23.—Reports from various points in the Rhineland this afternoon indicate separatists have been generally defeated, especially at Aix La Chapelle, Muenchen-Gladbach and Boun. At Aix La Chapelle they were severely beaten by the trades unionists and then ejected from the public buildings which they have been holding since midnight Saturday.

REPUBLICANS EXPELLED
London, Oct. 23.—A Berlin message to the Central News this afternoon says:

"A telegram from Aix La Chapelle says the police succeeded this morning in expelling the Republicans from the town regaining complete mastery of the situation. It is not known if any casualties occurred."

(By the Associated Press.)
The Rhineland Republic movement was extended in some quarters of the occupied area, but seems to be receding in the districts first affected. Berlin maintains that the movement has been generally defeated.

The most important new accession of the separatists was Duisburg in the Ruhr where the Rhineland republic was proclaimed today and the public buildings occupied. Dr. Han A. Dorten, leader of the previous separatist movement, seems to have thrown in his lot with the proponents of the present venture as his followers are reported to have hoisted the Republican colors on the government building at Weiden, his home town, where 10 persons were wounded in fighting.

On the other hand Berlin dispatches report the expulsion of the Republicans from Aix La Chapelle where the present republican movement saw its inception Sunday. The former regime is declared to have regained complete mastery there and also at Muenchen-Gladbach, where the separatists were defeated. Questions which the Republicans planned to make their capital was still in the hands of the old officials this afternoon but the separatists were said to be ready to seize it before the day ended.

There are conflicting reports regarding Bonn, where the Republicans were reported to have seized the government offices. The latest Berlin advice, however, declares the separatists have been defeated. Mayence and all other cities in the Ruhr except Duisburg are apparently still in the hands of the regular officials.

REPUBLIC PROCLAIMED

Brussels, Oct. 23.—A Belgian official news agency telegram from Duisburg today states that the republic was proclaimed there and the public buildings occupied by the separatists early this morning.

HOISTED AT WEISBADEN

Berlin, Oct. 23.—The colors of the Rhineland Republic were hoisted during the night on the German government buildings at Weisbaden by a band of separatists. Dr. Han A. Dorten, leader of the previous Rhineland republic movement whose home is in Weisbaden. A dispatch from that city states:

"The Weisbaden police were disarmed and locked in the barracks. A crowd which gathered in front of the government headquarters was fired on by the separatists who wounded ten persons. The message added. A general strike was proclaimed by the trades unions. Separatists also have possession of the government buildings in Bonn."

CITIES OPPOSED

Duesseldorf, Oct. 23.—The Rhineland separatists do not far from announced a general opposition but their efforts have not been successful when they strike the cities known to be opposed to them. Eberfeld for instance and Barmen, Essen, Dortmund and other Ruhr centers.

Even Coblenz is reported as likely to reject the honor of being the capital of the Rhine land republic. The burgomaster of that city it is asserted that force only will make him surrender the public offices.

North Dakota seed corn has been found to be the best for use in that section of Canada. Purchases also have been made in this section for the Red River Valley, one buyer from that section declaring that western North Dakota is and will always be the best place in the Northwest to obtain seed corn.

George F. Will of this city today expressed the opinion that western North Dakota is the best place for the best seed corn for the north and western Minnesota.

The elevation of this section, the normally dry falls, the clear, dry air and sunny weather gives the corn a better chance to mature and dry out than in the lower altitudes, he said.

There is not and cannot be, of course, he said, an unlimited market for seed corn, but the fact that this section can produce corn of the best quality and produce good yields augurs well for the future of western North Dakota as a corn raising section.

The greatest need at this time, he said, is a market for seed corn, and corn this year is of excellent quality, ripe, is drying rapidly, is plump and is yielding well, Mr. Will said. A farmer living southeast of here raised 60 acres of corn for seed purposes, using the best possible seed and taking good care of it. He has taken over 2,000 bushels of corn from the field.

The average yield per acre has been increased materially in the last ten years through increased improvement in the selection of seed and in the more important care in planting and cultivation, Mr. Will said.

ARRIVE FOR S. A. REVIVAL

Col. Bregle and Capt. Lord To be in Charge of Meetings

Col. S. Bregle and Capt. Lord of the Salvation Army arrived in Bismarck today where they will be in one of revival services for one week. The series of meetings will commence tonight at 8 o'clock at the local Salvation Army chapel.

The colonel is assisted by Capt. Lord, as soloist, officers from Mandan and Dickinson and local workers.

Col. W. Barker, head of the Salvation Army work in North and South Dakota and Minnesota and Adj. Chesham, the divisional secretary, will arrive to assist in the services Saturday and Sunday. The Sunday night service will be held at the Rialto theatre.

Sunday at 8 p. m. a service will be conducted in the state penitentiary. Col. Bregle will speak.

MANY ADMITTED

TO STATE SCHOOL
Dickinson, Oct. 23.—Many persons are being received at the state school for feeble minded at Graton since the completion of the new building there some time ago, according to R. B. Murphy of Bismarck. For many months there has been a long waiting list of persons who have been committed to the school at Graton but for lack of housing room it has been impossible to admit them. With the completion of a new building the waiting list will be cut materially.

ENCOURAGES BOY EMIGRANTS

Melbourne, Oct. 22.—The new government is about to adopt a policy of taking over private estates under compulsion, if necessary, to facilitate the establishment of temporary training farms for emigrants. New arrivals will be allotted holdings of this land, and the immigration of boys to Australia is to be particularly encouraged.

DRY AGENT, MIND RESTORED BY BLOW, FINDS HE HAS TWO "WIVES"

Arthur Whitney, Former North Dakotan, Must Decide What His Future Relations Will Be Within the Next Ten Days—Recovers From Partial Aphasia After Fight With Beer Robbers

St. Cloud, Minn., Oct. 23.—Interest centered here today on Mrs. Luella Whitney, wife of Arthur E. Whitney, federal prohibition agent, who was restored to his real self last night by a blow on the head received in a fight with beer robbers at New Munich Wednesday night last after five years of partial aphasia.

In eight days Mrs. Whitney must decide whether she will take her husband back to her home with his two sons at Grafton, N. D. or divorce him, for proceedings have reached a stage that unless further action is taken the couple will cease being husband and wife November 1.

Whitney, a veteran of the World War, was gassed three times while overseas 27 months and returned with his mind obscured. In New York he met an Escanaba, Mich. girl, now known as Mrs. Ann Whitney, and they lived together in St. Paul. Mrs. Luella Whitney denied that Whitney and Ann Whitney were married three weeks ago.

Last night when Whitney recovered consciousness for the first time he was the Arthur Whitney of pre-war times loving his wife Luella Whitney and professing ignorance of Ann Whitney.

The only thing he recalled in five years was that he had been a prohibition agent. He did not remember how he was hurt.

Whitney formerly also lived in Minot, North Dakota. A Mandan man who declared he knew Whitney said that he was in difficulties while in the army in France.

MINOT GIRL NURSE
Minot, Oct. 23.—Miss Agnes Balrud, daughter of Mr. and Mrs. Andrew Balrud, has written to relatives here stating she was being sent to St. Cloud as a nurse at the request of prohibition officials.

She refuted assertions that she and Whitney were sweethearts, declaring they were merely friends. Their acquaintance extended from the time Whitney lived in Minot. Her father is a restaurant proprietor.

McKenzie Case Is Postponed

The case in which the state of North Dakota sought to claim that the Alexander McKenzie estate should pay an inheritance tax in North Dakota on more than the real property owned in the county, scheduled for hearing before County Judge I. C. Davies, has been postponed by agreement of parties. It probably will be heard December 19.

MINERS WILL HELP TO PAY FOR ROAD WORK

Proposed to Surface Highway Leading from Wilton East, Two and One-Half Miles

Cooperative rebuilding of the road from Wilton two and one-half miles east was discussed by the board of county commissioners, in session here today.

Commissioner Oscar Bachman proposed the plan and urged participation by Burleigh county, declaring the arrangement would effect a big saving.

An offer from the Washburn Lignite Coal Company as a company and from miners employed there as individuals to raise a considerable sum, probably \$1,000, was reported. Citizens of Wilton are willing to contribute some money and it is proposed to have McLean and Burleigh counties join in the expense. Scoria would be used on the road.

The matter was under consideration by the commissioners this afternoon.

Bank Continues Its Program of Diversification

Ryder, Oct. 23.—J. P. Peterson arrived Wednesday evening with a carload of Holstein cattle, consisting of five registered and 17 high grade milk cows, which he bought for the First National Bank. This herd represents some of the finest dairy stock to be found in the nation's foremost dairy state, Wisconsin. They were shipped from River Falls and the bank is distributing them to those who are anxious to devote to the steady income that is obtained through the milking of good cows.

This is the second shipment of good milk stock that the bank has imported. Last summer they imported a carload of pure bred Guernsey cows, which were distributed in a like manner.

The importing of better milking stock is in strict coherence with the bank's diversification program and proves that Cashier Christiansen is a man of ability to carry out his plans.

MILL BREAKS EVEN

Grand Forks, N. D., Oct. 23.—Since Aug. 1 the North Dakota state mill and elevator has been "breaking even or better" and during the September, earnings were sufficient to take care not only of the operating expenses but also of interest on the mill bonds. C. E. Austin, manager of the project declared in an address before the "Y men's club," organization of the Y. M. C. A.

PURCHASES BONDS

St. Paul, Oct. 23.—The First State Bank of Fort Yates has purchased \$25,000 worth of certificates of indebtedness of the Fort Yates school district. The district will soon be nearer a cash basis, as the proceeds from the sale of the \$25,000 refund bond issue will soon be on hand.

BERLIN SAYS SEPARATISTS ARE LOSING

Ousted at Various Points in the Rhineland, Including Aix La Chapelle

WHOLE EMPIRE SEETHES

Bands of Communists Reported to Have Made Attacks on Hamburg Police Station

Berlin, Oct. 23.—Reports from various points in the Rhineland this afternoon indicate separatists have been generally defeated, especially at Aix La Chapelle, Muenchen-Gladbach and Bown. At Aix La Chapelle they were severely beaten by the trades unionists and then ejected from the public buildings which they have been holding since midnight Saturday.

REPUBLICANS EXPELLED
London, Oct. 23.—A Berlin message to the Central News this afternoon says: "A telegram from Aix La Chapelle says the police succeeded this morning in expelling the Republicans from the town regaining complete mastery of the situation. It is not known if any casualties occurred."

(By the Associated Press.)
The Rhineland Republic movement was extended in some quarters of the occupied area, but seems to be receding in the districts first affected. Berlin maintains that the movement has been generally defeated.

The most important new accession of the separatists was at Duisburg in the Ruhr where the Rhineland Republic was proclaimed today and the public buildings occupied.

Dr. Han A. Dorten, leader of the previous separatist movement, seems to have thrown in his lot with the separatists. The present venture as his followers are reported to have hoisted the Republican colors on the government building at Weisbaden, his home town, where 10 persons were wounded in rioting.

On the other hand Berlin dispatches report the expulsion of the Republicans from Aix La Chapelle where the present republican movement saw its inception Sunday. The former regime is declared to have regained complete mastery there and also at Muenchen-Gladbach, where the separatists had seized control.

Coblenz, where the Republicans planned to make their capital was still in the hands of the old officials this afternoon but the separatists were said to be ready to seize it before the day ended.

There are conflicting reports regarding Bonn, where the Republicans were reported to have seized the government offices. The latest Berlin advice, however, declares the separatists have been defeated. Mayence and all other cities in the Ruhr except Duisburg are apparently still in the hands of the regular officials.

REPUBLIC PROCLAIMED
Brussels, Oct. 23.—A Belgian official news agency telegram from Duisburg today stated that the republic was proclaimed there and the public buildings occupied by the separatists early this morning.

HOISTED AT WEISBADEN
Berlin, Oct. 23.—The colors of the Rhineland Republic were hoisted during the night on the German government buildings at Weisbaden by a band of followers of Dr. Hans A. Dorten, leader of the previous Rhineland republic movement whose home is in Weisbaden. A dispatch from that city states:

"The Weisbaden police were disarmed and locked in their barracks. A crowd gathered in front of the government headquarters was fired on by the separatists who wounded ten persons, the message adds. A general strike was proclaimed by the trades unions. Separatists also have possession of the government buildings in Bonn."

CITIES OPPOSED

Duesseldorf, Oct. 23.—The Rhineland separatists so far have encountered serious opposition but they will not have such smooth sailing when they strike the cities known to be opposed to them, Elberfeld, for instance, and Barmen, Essen, Dortmund and other Ruhr centers.

Even Coblenz is reported as likely to resist the honor of being the capital of the Rhineland Republic. The burgomaster of that city, it is understood, that force only will make him surrender the public offices.

CONVENTION TO BOOST FORD IS TO BE STAGED

Ford - For - President Clubs Plan Rally in Home Town of Michigan Manufacturer

DETROIT, Mich., Oct. 23.—Formation of a new national political party with Henry Ford as its standard bearer will be undertaken at a national organization conference of all Ford-for-President clubs to be held here December 12, 13 and 14. The call for the conference was decided upon at a meeting last night of several Michigan Ford clubs.

The conference, according to leaders, probably will name a date and place for holding a nominating convention next spring.

The conference call will go out in a few days, it was stated by William Kroenberg, secretary of the Dearborn Ford-for-President.

"It was decided upon," he said, "only after insistent demands from Ford clubs throughout the country."

The Dearborn club, he said, and been inactive for sometime owing to its inability to obtain from Henry Ford any statement as to whether he would accept nomination from a political party.

"We virtually were forced into action," he added. "Many of the clubs in the other states threatened to proceed with a convention call if we did not do so."

Mr. Kroenberg estimated the number of Ford clubs at between 300 and 400 and added that he was advised the organization conference would attract at least 3,000 delegates and visitors. Sessions of the organization conference, he said, would be held in the auditorium at Dearborn, home of Henry Ford.

QUARREL LEADS TO SHOOTING

Minnesota Man Is Killed By His Stepson Over Land Deal

Blue Earth, Minn., Oct. 23.—James Martin, 55, living three miles east of Easton, in Faribault county, was shot and killed by his stepson, Walter Tannis, 25, with a .22 calibre rifle. The shooting followed trouble over a land deal.

The tragedy was witnessed by the slain man's wife, who also is the mother of Walter Tannis. Two children also survive Martin.

Following the shooting, Tannis went to Easton, 16 miles northeast of this city, and gave himself up to Deputy Sheriff Joe Doyle, who brought him here and locked him up in the Blue Earth county jail.

HAITI EDUCATES RABIES
Port-au-Prince, Haiti, October 22.—When the American Sanitary Service found itself confronted with an epidemic of rabies in Port-au-Prince, it went into the heart of the matter by going after the dogs, the numberless dogs that infest the city streets, and remind world-wide travelers of Constantinople, they tell us.

The citizens were given due notice, and then a liberal supply of poisoned meat was distributed throughout the city. The resulting mortality met the most sanguine expectations, and the menace of rabies came to an end.

KIWANIS CLUB MEMBERS HEAR OF PURPOSES

Inception, Growth and Aims of Organization Are Outlined at Today's Luncheon

ALSO HOBBIES TOLD

Members of the Kiwanis club, at today's weekly luncheon at the Elks lodge, heard talks upon the organization, what it has done in the country and what Kiwanis clubs may do. L. Robertson, Worth Lumry and E. C. Cox talked upon various phases of the general subject. Mr. Robertson, sketching past history for similarity with Kiwanis club teachings, found in the proverbs and injunctions of sages of past civilizations symbols of the Kiwanis club fundamentals. The motto, "We Build," he compared to their teachings. Also tracing the development of the club from the standpoint of commercial growth, he used a graph to show that Kiwanis had expanded from a small beginning in 1915 until in 1933 it has over 1,100 clubs with over 83,000 members. The organization, he said, is reaching out from the large cities where there is need for an organization built upon the principles of Kiwanis. Kiwanis, he said, embraces the good purpose of an organization without form or ceremony to hide the aims from the members.

Mr. Lumry emphasized the duty of Kiwanis spirit of fair play in business and recognition of duty to the underprivileged, both mature and young, but with emphasis upon efforts to secure for the underprivileged young the opportunities which they might miss without a helping hand. While education has made wonderful strides in the nation and altruistic effort has reached a high stage, yet there is pressing necessity for an organization to devote its best thought to the subjects. Schools can be improved, the health of the community bettered, the desires of the young for recreation turned into the proper channels and the underprivileged given a chance to make good, he said.

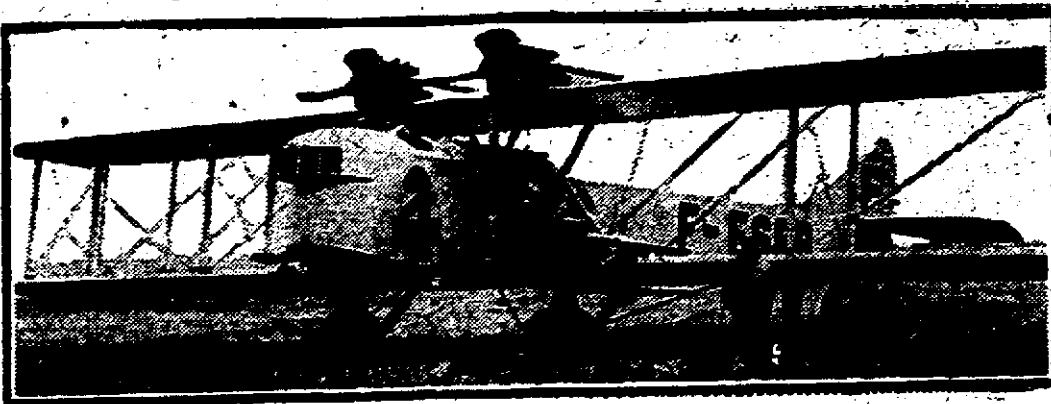

Mr. Cox, talking upon the possibilities of the club in its first year of existence, said that he believed no greater step could be made than by "getting acquainted." He urged upon the members the necessity of co-operation and friendly feeling in its building up process, expressed gratification that the club had started with a membership which did not depend upon numerical strength for its success.

Fifteen minutes of banter and lifting of secrets preceded the talks, during which Bill Gattelman told something of the hobbies of Jack Wallace, Edward Cox talked with and about Dr. C. E. Stackhouse, M. B. Gilman told of George Russ' tennis hobby, Dick Wenzell spoke of E. R. Murphy, L. C. Sorlein of Spencer Boise, and John Graham of Judge Birdsell. Jack Parkinson, chairman of the day, kept the dinner bubbling over with laughter. The attendance prize drawn by lot went to President Scott Cameron. The prize, a first aid kit was donated by Dr. M. O. Ramsdell.

GASTON MEANS IS INDICTED

Former Agent of Department of Justice Is Held

New York, Oct. 22.—Gaston B. Means, a former agent of the department of justice has been indicted with Elmer Jarnack, described as his secretary, on four counts, including alleged conspiracy to violate the country's dry laws and using the mails in a scheme to defraud.

Indictment became known when the seals were broken on four indictments handed down yesterday by Federal Judge Robert H. Jackson. Means was released on \$15,000 bail for a hearing. It was understood Jarnack would appear tomorrow.

The indictment charged a series of conspiracies to violate the national prohibition act, the liquor tax law, and the internal revenue laws by illegally removing quantities from bonded warehouses and by using the mails to defraud St. Schmidt of Chicago in a whiskey selling deal.

TEA POT DOME NOT SO GOOD

Being Drained Heavily by Adjacent Oil Operators

Washington, Oct. 22.—Teapot Dome, the naval oil reserve leased last year to Harry S. Truman, is being drained heavily by adjacent private operators that it will produce far less oil than originally predicted in the opinion of two expert geologists who investigated the situation for the Senate Public Lands Committee.

Although the Bureau of Mines estimated originally that the reserve contained 185 to 200 million barrels of oil, the geologists estimated that the yield from the main bearing sand would not exceed 24 to 26 billion barrels. It is even a smaller estimate of a separate survey of the navy and interior departments.

Washington, Oct. 22.—Investigation as to whether prevailing low prices being paid for hogs are the result of undue influence is being made by Secretary Wallace.

Over a period of 30 years the Secretary has found the value of 100 pounds of hogs has been approximately the equivalent of 11 bushels of No. 2 corn at Chicago prices but prices have fallen to such an extent as compared to the raising prices of corn that the corn-hog price ratio is out of proportion.

Hogs closed last week around \$7.00 per hundred pounds for the average bulk sales while corn closed at \$1.07 a bushel. The low prices of hogs for the year was \$6.65.

Youngman was unconscious for a half hour following the accident. The attending physician said today that he did not expect Youngman's injuries to prove fatal although the full extent of the bruises have not been ascertained as yet.

HONOR PAID SLAIN MAN

Member of Posse Shot Capturing Slayer Is Buried

Alexandria, Minn., Oct. 22.—Funeral honors were paid Wm. Ransden, 33, former service man, who died as a result of wounds received while attempting to dislodge Edward Larson, slayer of Jacob Day, a neighbor, early Saturday morning at the funeral services this afternoon held under the auspices of the local American Legion post.

Ransden received the fatal wound when he separated himself from a posse which was attacking the burglar. Ransden it is said, was accidentally shot by some member of the posse.

Services were held in the Congregational church here early this afternoon. Arrangements for the burial of Larson whose body was found in the ruins after the posse had been completed.

The funeral of Lay, the victim of Larson, will be held Wednesday from the Catholic church.

Do It Tonight

Start this delightful test Combat that dingy film

Your druggist this week has a special offer. Get one and watch the results.

Dainty people—millions of them—now use a new method of teeth cleaning. It brings them whiter, cleaner, safer teeth. It will to you. Go prove this.

All must fight film. All people who want prettier teeth must fight the film. Film is that vicious coat you feel. In old-way brushing, much of it clings and stays. Soon it becomes discolored, then forms dingy coats.

Film also holds food substances which ferment and form acids. It holds the acid in contact with the teeth to cause decay. Come tested by millions to it. They, with tartar, are the chief cause of pyorrhea.

These sticky teeth and tooth troubles become almost universal. Dental science has now found and proved out ways to fight that

film. One disintegrates the film, one removes it without harmful scouring.

Many careful tests proved these methods effective. They are new-type tooth pastes were created to apply them daily. The name is Pepsodent.

Now, the world over, that tooth paste is bringing a new dental era. Careful people of some 60 nations are employing it today.

Multiplying helps. Pepsodent also multiplies the alkalinity of the saliva. That is there to neutralize acids. It multiplies the starch digestant in saliva. That is there to digest starch deposits.

These are Nature's great tooth-protecting agents in the

mouth. Every use of Pepsodent gives them manifold effect.

Look about you. Note the gleaming teeth you see in every circle now. Get Pepsodent in any druggist will show you what Pepsodent is doing.

Learn what it means to you. Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the vicious film. See how teeth become whiter as the film-coats disappear.

COMMITTEE ON WHEAT BOARD WILL "CAMP"

Members to Stay in Washington Until Action Is Obtained, Says Chairman

Minneapolis, Oct. 23.—A committee appointed at the farmer-banker meeting at Wheaton, Minnesota, last August which went on record for the establishment of an agricultural board by Congress with power to fix prices of all agricultural products will "camp" in Washington next month and stay there until Congress takes final action on the question, Frank W. Murphy of Wheaton declared here today.

Murphy is chairman of the committee named for Minneapolis at the Wheaton meeting which he called. "We will set up some kind of office in Washington and we'll stay by our guns," Mr. Murphy declared. "This agricultural board will be established, I feel sure. The farmers of the Northwest are for it. The committee from one state will go down and then if business demands that its members come back the committee from another state will take its place."

Committees were appointed at the Wheat meeting from Minnesota, North and South Dakota. The chairman for the North Dakota committee is Halvor Halvorsen of Minot.

"ROBIN HOOD" GREAT FILM

Douglas Fairbanks at His Best in Mammoth Production

"Douglas Fairbanks in Robin Hood" is the title of the picture. The title is correct. For who is there on the silver screen today who could vivify the dashing, picturesque personality of the famous "Robin Hood" of fiction?

The picture was shown at the Eltinge last night for the first time in Bismarck, and will be shown there more days. It was obtained for Bismarck only after months of negotiating, for the picture has been in great demand in the larger cities of the nation at high prices.

Nearly everybody is a Douglas Fairbanks fan, but those that may not be will find plenty of material for entertainment in Robin Hood—its glorious scenic settings, gorgeous costumes, mammoth reproductions, stirring figures, and a lively story running through it.

The picture opens with the last day of the tournament in "Merrie England" of old. It was the clash of the champions. Protected by coats of mail and armed with lances the two figures dash toward each other on horseback. There is a crash. The Earl of Huntington is victor. Huntington is summoned to the royal box and made second in command of the army for the next crusade. Huntington fell in love with Lady Marian. Huntington decided to leave the crusade to frustrate the plotting brother of the King. The King learned he was imprisoned, escaped, he found the castle burned and Lady Marian trying to escape the usurper. The Earl swore to restore the throne to Richard. He gathered his supporters, took the name of Robin Hood, established himself in Sherwood forest, robbed the rich and fed the poor, and finally he achieved his aims after desperate encounters.

There is everything in the story of Robin Hood to make a great motion picture, and Douglas Fairbanks overlooked nothing. It is a mammoth production, said to have cost more than \$1,000,000. The cast is remarkably fine, including Enid Bennett, Sam DeGrasse, Paul Dickey, Alan Hale and Dick Rosson.

POLICE "GEM" CHASED PIG SKIN ONCE

Only One Cop Like "Big Tim Tommons" Who Directs Traffic in Pittsburgh

Pittsburgh, Pa., Oct. 23.—Back in his youth, Clarence J. "Big Tim" Tommons here was a crack luminary on the college gridiron.

Today his star no longer twinkles in the athletic heavens, but there's another in his breast just as bright.

For which, if any explanation is needed, let it be known that "Big Tim" is a cop.

However he's of the super variety. And it's said hereabouts that they broke the mold after pouring Tim out.

No longer does he buck the line in pursuit of the elusive piskin.

But his football training comes in mighty handy.

For Tim Tommons directs traffic at a street intersection forming Pittsburgh's busiest corner, and likewise the most traveled spot in the country, according to statistical snarps.

During the past 10 years his whistle has shrieked its "come ahead" and "stop" blasts to an ever lengthening line of vehicles.

Once he had a semaphore to assist him in his work. But the contrivance took up too much room in the needed space where every inch counts.

Passing autoists hail him by the score. They know Tim stands for law and order, which his commanding presence does little to belie.

By goes the snaky winding line, and from out of it come repeated shouts of greeting.

"Hello, Tim! How are you?" And so on and so forth.

You can take it from police department heads that it takes a real man to handle Tim's corner and not get fussed.

And in the cheerful veteran all concern that a police gem—because Tim's just that they say—has been found.

The other day Tim celebrated his tin anniversary on the force.

He's been a cop 15 years now and like it.

NIBLO FILM AT CAPIOTL

Story Based on Famous Stage Play, "Captain Applejack," His Best Work

Fred Niblo, the man who directed "The Three Musketeers," "Blood and Sand," and "The Famous Mrs. Fajls," has attained his supreme achievement in his newest production, "Strangers of the Night," adapted from the famous stage play "Captain Applejack," coming to the Capitol theater Wednesday, Thursday and Friday.

Mr. Niblo has a wealth of experience in back of him. As a boy he created quite a demand for his services as an actor in all the amateur theatricals in his neighborhood. As he grew older, this demand grew until he resolved to charge a fee for his services. He registered at an agency and made a business of passing away the time.

From then on Mr. Niblo's rise to fame was rapid. In a short time he was the highest paid monologist in vaudeville. He shifted his talents from vaudeville to the stage and scored in such stage triumphs as "The Fortune Hunter" and "Hit the Trail Holiday," both under the management of George M. Cohan.

Mr. Niblo then turned his attention to the screen. He created the most talked of pictures of 1920, namely the "Mark of Zorro." This, together with eighteen pictures starring Enid Bennett, Mr. Niblo's wife, convinced him that his life work was directing photoplays.

"Strangers of the Night" was adapted by Bess Meredith from the Sam H. Harris stage success, "Captain Applejack," by Walter Hackett. It is presented by Louis B. Mayer and distributed by Metro.

The cast includes Barbara La Marr and Matt Moore.

MARKET NEWS WHEAT TAKES UPWARD TURN

Active Investment Buying Is Given as the Reason

Chicago, Oct. 23.—Wheat took a decided upward swing in price today, soon after the opening. Active investment buying was given as a reason. The buying was said to be based more or less on renewed attention to shortage of wheat east of the Rockies and to something of an advance in Liverpool quotations. The opening which varied from unchanged figures to 3-8 cents higher with Dec. \$1.05 1-2 to 3-4 cents and May \$1.10 3-8 to 1-2 was followed by a slight sag and then a rise of more than one cent a bushel above yesterday's finish.

September exports were larger than generally expected and bulls excoriated by possible governmental especially the chance a reduction in railroad freight rates on wheat. Price gains, however, failed to hold well. Close unsettled 1/4 to 3/4 cent net higher with December \$1.05 1/2 to 3/4 and May \$1.10 1/2 to 3/4 to \$1.10 3/4.

KOPRIVA CASE IS DISMISSED

Minot, N. D., Oct. 23.—An appeal will be taken to the supreme court from Judge George H. Moelling's decision in district court at Bismarck dismissing the embezzlement action against Charles J. Kopriva, county auditor of Burke county.

Francis H. Murphy, special assistant attorney-general, announced today.

Kopriva was charged with the embezzlement of \$700 in hunting license funds shortly before he was removed from office about a year ago.

WOMAN, MAN ARE SLAIN

Denver, Colo., Oct. 23.—A. H. Mitchell, a Denver plumber, today confessed to the police that he had shot and killed Mrs. Georgia A. Bryan, 30, and A. J. Sherrill, 70, in a bedroom at the Sherrie home to-day near Morningside, Colorado.

Mitchell declared he could not stand to see Mrs. Bryan "loving another man," the police said. Mrs. Bryan was the wife of W. S. Bryan, assistant fire chief of Denver.

A. O. U. W. Decides On Dividend

Fargo, Oct. 23.—Following discussion of the new dividend plan for the insurance organization of the A. O. U. W., North Dakota jurisdiction, a dividend rate of nine per cent was decided upon at the meeting of the board of directors of the lodge, B. C. Marks, grand master workman, reported.

The report of the finance committee showed that the total assets of the order are \$3,350,618, with \$3,325,990 in its reserve fund. Routine business was transacted.

Meeting of the board are subject to call of the grand master workman and are generally held twice a year, Mr. Marks said.

NIBLO FILM AT CAPIOTL

Story Based on Famous Stage Play, "Captain Applejack," His Best Work

Fred Niblo, the man who directed "The Three Musketeers," "Blood and Sand," and "The Famous Mrs. Fair," has attained his supreme achievement in his newest production, "Strangers of the Night," adapted from the famous stage play "Captain Applejack," coming to the Capitol theater Wednesday, Thursday and Friday.

Mr. Niblo has a wealth of experience in back of him. As a boy he created quite a demand for his services as an actor in all the amateur theatricals in his neighborhood. As he grew older, this demand grew until he resolved to charge a fee for his services. He registered at an agency and made a business of what had just been a means of passing away the time.

From then on Mr. Niblo's rise to fame was rapid. In a short time he was the highest paid monologist at vaudeville. He shifted his talents from vaudeville to the stage and scored in such stage triumphs as "The Fortune Hunter" and "Hit the Trail Holiday," both under the management of George M. Cohan.

Mr. Niblo then turned his attention to the screen. He created one of the most talked of pictures of 1923, namely the "Mark of Zorro." This, together with eighteen pictures starring Edna Bennett, Mr. Niblo's wife, convinced him that his life work was directing photoplays.

"Strangers of the Night" was adapted by Bess Meredyth from the Sam H. Harris stage success, "Captain Applejack," by Walter Hackett. It is presented by Louis B. Mayer and distributed by Metro.

The cast includes Barbara La Marr and Matt Moore.

BURIED 25 DAYS BY QUAKE FOUND ALIVE

Tokio, Oct. 23.—Four Japanese girls, students at the Yokohama high school, who were buried under a heap of debris during the earthquake, were rescued alive after being imprisoned for 25 days without food.

Workers clearing away the debris came upon a large arched rock, and, removing the earth around it, found the girls under the protecting boulder. They had kept alive on the few drops of water that had trickled down from above.

The girls were taken to a hospital and are said to be recovering.

COURT FIXES STRANGE COSTS

Berlin, Oct. 23.—A Berlin shoe-maker recently sued a prominent German actress for libel and won a decision. The actress was required to pay the costs of the case. When the judge asked the shoe-maker the amount of his lawyer's fee, the cobbler replied he had promised the attorney a new pair of half-soles. The court required the actress to pay the cost of mending the lawyer's shoes.

WEATHER CHANGES CAUSE SICKNESS

Extreme changes of weather during Fall cause many colds and coughs. For quick relief from throat, chest and bronchial trouble, coughs, colds and croup use Foley's Honey and Tar. WHEAT TAKES UPWARD TURN

Active Investment Buying Is Given as the Reason

Chicago, Oct. 23.—Wheat took a decided upward swing in price today soon after the opening. Active investment buying was given as a reason. The buying was said to be based more or less on renewed attention to shortage of wheat east of the Rockies and to something of an advance in Liverpool quotations. The opening which varied from unchanged figures to 3-8 cents higher with Dec. \$1.05 1-2 to 3-4 cents and May \$1.10 3-8 to 1-2 was followed by a slight sag and then a rise of more than one cent a bushel above yesterday's finish.

September exports were larger than generally expected and bulls exercised by possible governmental especially the chance a reduction in railroad freight rates on wheat. Price gains, however, failed to hold, well. Close unsettled 1/4 to 3/4 to 1/2 cent net higher with December \$1.05 1/4 to 1/2 and May \$1.10 1/4 to 1/2 to \$1.10 1/4.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

RESOLUTIONS OF THE LEGION

The resolutions adopted by the national convention of the American Legion at San Francisco, as might be expected, are worthy of the organization.

The Legion's "Americanism" resolution asked maintenance of the American fleet in accordance with the 5-5-3 ratio agreed upon at the Washington conference. The Legion asked development of the merchant marine, the air forces, adequate preparations for national defense, complete rehabilitation and hospitalizing for disabled veterans and tightening of certain restriction on immigration.

With the memory of the World War not yet dimmed, the Legion does well to speak with force in behalf of sane preparations for the national defense. Until the day comes when limitation agreements such as that of the Washington conference called by the late President Harding affect all branches of military service, it is plain that the United States must be prepared to speak to a troubled world with the authority conferred by power to enforce just demands.

In spite of the effort to break down the immigration limitation policy now pursued by the country and although there are ill attending such a policy, the wide-spread illiteracy, lack of respect for law and failing appreciation of the fundamentals of American government argue strongly for the continuance of a policy which will insure to America the benefit of the best immigration possible to aid in the building of the nation.

The Legion did not mention any organizations. It did say, very plainly, that "we consider any individual, group of individuals or organization which creates or fosters racial, religious or class strife among our people or which takes into their own hands the enforcement of law, determination of guilt or infliction of punishment to be un-American, a menace to our liberties and destructive of our fundamental law."

To those who question the resolution the Legion may answer that if the shoe fits, wear it. No great organization can condone any force, whatever its name or purpose may be, which imperils the foundation of the government.

WHAT YOU LIKE

A New York clerk is sent to the penitentiary for the fourth time and for the same old offense—stealing dictionaries. His fourth attempt to increase his vocabulary took place in a department store where he saw the king-pin of dictionaries—\$13.50, which, being a clerk of modest means, he couldn't afford.

You will read a good many days before you find anything stranger than this in the news.

Three times he had stolen dictionaries and gone to prison for it. You'd think he had learned his lesson. Not so.

Here you see the workings of a curious brain kink or abnormality that is also characteristic of the chronic criminal. What most of them need is expert medical attention by brain specialists.

Off to prison the fourth time, the old man (he's 75, with white hair) who can't resist dictionaries, boasts that his vocabulary now includes 100,000 words. The reporter describes him as having a "scholarly brow."

Too bad some rich man didn't catch him early in the game and "cure" him by giving him all new dictionaries as fast as they came from the presses.

Difficult to understand him and his peculiar craving? Well, after all, isn't it just as sane as some of the cravings the rest of us have? We know many a man who is "crazier" about golf, salted peanuts or a collection of canceled stamps than this pitiful old character braving jail in his quest for knowledge.

FISHES' DESTINY

Fish, buried in vast quantities millions of years ago by volcanic upheavals, gradually turned into the petroleum which the oil men now take out of the earth's depths. This is the theory of Dr. John M. MacFarlane, distinguished geologist, after 50 years of study.

It required millions of years for nature to form the oil, coal and minerals which man in effect is consuming in a few centuries. An interesting time is ahead for our descendants when natural resources will be exhausted. Far off, yet a short time compared with the ages devoted to preparation.

"CONSCIOUS DESIRE"

Drugless doctors, holding a convention, see three children whose parents claim that the sex and vocation of each child was determined before birth by the "conscious desire" of the parents.

We take it that "conscious desire" is a form of will power.

There will be an answer, and a loud one, from parents who emphatically wanted a boy and got a girl, or vice versa.

SUN'S POWER

Man is harnessing and using less than one-thousand-millionth part of the energy that gushes to our earth from the sun, according to Sir Oliver Lodge.

Admittedly, this is true. But what's the use of harnessing the rest of it? If we believed the Big Talkers, happiness is a matter of horsepower. Maybe we'd be happier if we harnessed less instead of more.

FALE PORTRAYAL

The "hick" farmer, as portrayed on stage and in movies, no longer exists. He should be replaced by a real modern farmer—business man owning an auto and the latest farm machinery. So urges the publicity staff of American Farm Bureau Federation.

While they're at it, they might correct the former's notion of the modern city man, just as false as the stage farmer.

ADVENTURE OF THE TWINS

By Olive Roberts Barton

"Well!" said Farmer Brown one day as he walked through the cornfield. "It's getting pretty late in the fall and I think this corn is dry enough for husking. Tomorrow I'll hitch Charlie and Bob to the big wagon and we'll take down the cornshocks and haul the corn in. Then I'll invite all my neighbors over and we'll have a husking-bee and my wife will have cider and doughnuts for them."

Farmer Brown was talking to himself, but three pairs of sharp little ears heard every word he said.

Nancy looked sad. "If Farmer Brown takes away all the cornshocks, he'll take away our home, too," she said. "And where will you live this winter, Mister Dodger?"

"Why, I'll go and rest for a spell," answered the little fairy fellow cheerily. "I'll go back to the Fairies' Hotel in Fairyland where most of the fairies stay when they aren't working. I haven't seen my friends for a long time and it'll do me good to have a good visit with Mister Tatters and Mister Sky-Bow and Mister Tingaling and Mister Scribble Scratch and all the others I haven't seen for so long."

"But what will the Squeaky-Moo people do without you?" asked Nick. "Will they be safe?"

"Sure!" answered the little fairy man, stuffing his old corn-cob pipe into his pocket. "It's only when they are out of doors they need to be looked after so much. When they are indoors, as they will have to be mostly from now on, they are safe. Crazy Calf can't eat poison weeds, and Frisky Colt can't squeeze through the orchard fence and make himself sick on sweet apples. And Mister Hawk has gone south for the winter, I guess, so I haven't seen him lately; so the chickens and ducks won't be in danger, either."

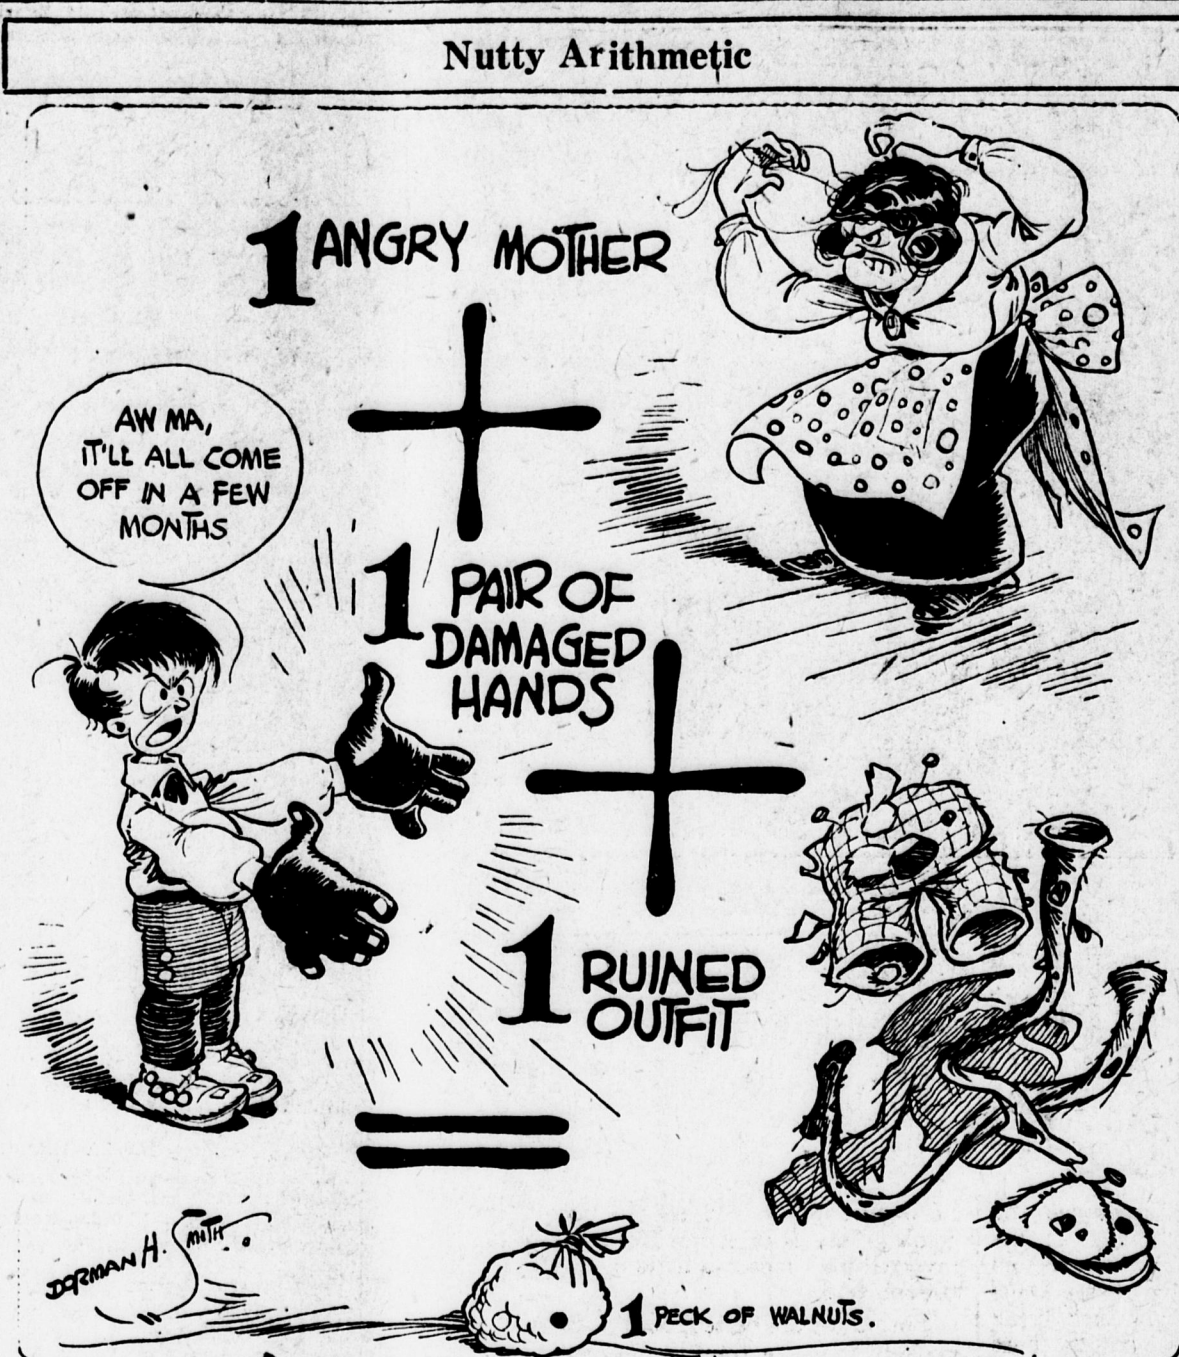

"Well, if you go, we'll go, too," declared Nancy. "I mean we can't stay in Squeaky-Moo Land by ourselves."

"I was just coming to that," nodded Mister Dodger with a mysterious smile. "Useful people are never out of a job, my dears."

He reached into his pocket and pulled out a letter. "I found this on the table when I came in today," he said. "Silver Wing, the Fairy Queen's messenger, must have brought it while we were out."

It was addressed to the Twins, and read:

"Please come to my palace at noon."

as you get this, I want you to go south to Dixie Land.

Lovingly yours,
"The Fairy Queen."
"I told you so!" said Mister Dodger. "Come! We'll say goodbye to our friends here and be going."

EVERETT TRUE

YOU'RE NOT DOING THAT RIGHT, MR. TRUE. YOU OUGHT TO PUT THE—

The Tangle

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, CONTINUED.

I never will be able to understand, dear little Marquise, what malignant fairy made me tell Mr. Cocoran that Karl has given me the pearls. The moment the words were out I would have given anything if I could have taken them back. But, alas, words once spoken are of the few things in this world that cannot be taken back or changed or made over. They must stand and we must stand by them.

I could hardly confess to Mr. Cocoran that I had told him a lie especially as seemingly I had no excuse for doing it, and having told him the lie, I had to bring about other truths to bolster it up. Down in my heart I didn't believe that Mr. Cocoran thought I was telling the truth and quickly my brain tried to form a plan by which I could make him think that a young man, even as rich as Karl, would give me as beautiful a present as the pearls.

After a little hesitation I said, "You know Karl Whitney and I have been like brother and sister all our lives. Ever since I was a little girl and admired pearls in a shop window Karl said to me he would see that I had some when I married. I am sure that neither he nor I had any idea what promise entailed as neither of us knew the value of the milky white jewels. But when I married, as you see, he kept his childish promise."

"Of course, Leslie," said Mr. Cocoran. "I have no idea what pearls of this kind cost, but I imagine they are very expensive. Does your mother know about this?"

"Oh yes," I answered. "Karl has also given Alice a string since she went to England. You don't think I

would take them if she hadn't approved, do you?"

Again I was some evil spirit speaking through my lips, for certainly I should never have allowed Mr. Cocoran to think that my dear mother would do such a thing.

Mr. Cocoran, however, seemed to think if mother approved it was all right. He said no more, but gave me a note to a friend of his who was a jeweler broken and I got out of his office as soon as possible.

When I told the man my business and showed him my pearls, it seemed to me he was greatly astonished.

"My dear young lady," he said after a little examination, "do you realize what these beads, as you call them, are worth today?"

"I have no idea of their value," I said, "but I would like to sell you three or four of them Mr. Cocoran said that you would deal honestly with me."

"Of course I will, and as it happens I have a patron who is collecting stones of this size. In fact, he has been collecting them for years."

"How much will you give me for the three?"

"I cannot afford to give you over three thousand dollars apiece for them." (Copyright, 1923, NEA Service, Inc.)

Kubisiak-Reidinger Join in Marriage

The marriage of Miss Audenia, Reidinger, daughter of Mr. and Mrs. Joseph Reidinger, became the bride of Stephan Kubisiak of Wisconsin Rapids, Wis., yesterday at St. Joseph's church. They were attended by Miss Elizabeth Heckep and Paul Reidinger. Miss Isabelle Reidinger, sister of the bride acted as flower girl. Father Clemens officiated at the ceremony.

The bride was dressed in a pale pink wedding gown with wreath and veil to match and carried a bouquet of lilies of the valley and carnations. The bridesmaid was dressed in a orchid with picture hat and also carried a bouquet of lilies of the valley and carnations.

Following the ceremony a wedding breakfast was served at the home of the bride's parents to which the immediate relatives and a number of friends attended.

Mrs. Kubisiak graduated from the local schools and for the past two years has been employed as bookkeeper at the Merchants National bank. Mr. Kubisiak has been in the employ of the Northern Pacific here but plans to return to Wisconsin soon where they will make their home. They left for eastern cities for a short honeymoon.

Mandan will be the scene of a preliminary International Hay and Corn show next week, according to Secretary E. A. Ketter of the Morton County Commercial club. The show will be held in Mandan the week of Oct. 2 to Nov. 3, inclusive and will be for the purpose of getting corn and hay samples for exhibit at the International Hay and Grain show which is to be held in Chicago in December.

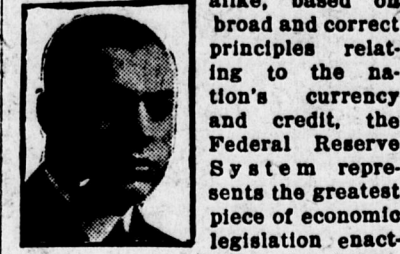

Mrs. Martin W. Rose, who was here to attend the funeral of her mother, Mrs. Flora Adams, has left for her home in Portland, Ore. Mrs. Rose, formerly Miss Mamie Adams is the wife of Dr. Rose, a prominent physician of Portland.

WORLD'S GREATEST BANKING SYSTEM

By CRAIG B. HAZLEWOOD
President Association of Reserve City Bankers

Conceived in the spirit of common good, for the best interests of government, banks and public alike, based on broad and correct principles relating to the nation's currency and credit, the Federal Reserve System represents the greatest piece of economic legislation enacted by an American Congress.

C. B. Hazlewood

The System's record of achievement through a world war, an inflation period of dizzy heights, and months of serious and costly liquidation. It is a matter of greatest importance that very earnest and patriotic thought be given to the two questions: How far has the system succeeded, and in what particular has it failed, to give our country as strong and as useful a financial system as human mind can devise?

The hope and expectation of those who framed the Federal Reserve Act that the machinery set up for the origination, distribution and automatic retirement of currency issue, which should be entirely responsive to the needs of trade and the varying conditions of business, have been wonderfully well realized. Every possible effort must be exerted to preserve the Federal Reserve System from political alliance and to keep its powerful influence entirely devoted to the building up of the greatest banking system in the world.

The first bank of the United States was established in 1791 and failed to obtain a renewal of its charter in 1811. The opponents charging that the bank was a "money trust" controlled by foreigners, a tool in the hands of the Federalists, and that the act chartering the bank was unconstitutional. Note the use of the words "money trust." We have the idea that this is a modern term. The suspicions which animate the demagogue today have not changed in a century.

The second bank of the United States was chartered in 1816 and failed to obtain a renewal of its charter in 1831, the reasons being a widespread belief that the bank was unconstitutional, the hostility of the states, the opposition of the state banks, the rise of democracy, and the end and hatred which the poor always feel toward the rich.

Both banks functioned well and accomplished much for the country during crucial times. The

useful, at that DEPARTMENT HEAD—We'll have to sack that new salesman. He's asleep most of the time.

WORLD'S GREATEST BANKING SYSTEM

The delicate handling of currency and credit, to the high end that the best interests of all may be served with special privilege to none, cannot be left to others than those who are competent through proven judgment and experience. The danger of politics in the Federal Reserve System is a real one; upon us is placed the grave responsibility of forever keeping the great system clean.

MAKING CAPITALISTS OUT OF WORKMEN

Festus J. Wade Says Anarchy Disappears With the Development of Thrift.

When the savings pass-book comes into a man's life to stay the red flag goes out. What the country needs is to bring about a condition whereby the man who works with his hands shall take the same interest in his affairs as the capitalist does in his. Probably the best way to do this would be to turn the workman into a capitalist. And this is exactly what he becomes when he saves his money and builds up a reserve fund. He remains a capitalist as long as he holds on to that money. The satisfaction of seeing his money reserve mount up will discourage the waster to take a layoff now and then. It will encourage him to work a full six-day week and thereby increase the labor hours applied to production.

The American people can solve any problem they set themselves to. We provided for a sound currency when the greenbackers and inflationists were routed and the gold basis established. The Federal Reserve Bank was established and solved a problem for which most people thought there was no solution. A number of years ago, when there was a crisis or when a bank failed, we all used to shut up our vaults tight and let nothing get out. Instead of bettering conditions we made them worse. Now if failures occur few people, except those directly interested, are disturbed.

Perhaps the most important problem of all right now is to do away with labor waste. It never can be done by preaching, by agitation or by force. It can be done by selling the workman on the idea of becoming a capitalist. This can be brought about by the right kind of bank advertising. Who is there to say that an advertising dollar bringing about this result would not be a constructive dollar? —Festus J. Wade.

Farmer-Labor Party is Plan

Great Falls, Mont., October 23.—The Farmer-Labor party in Montana is to be formed at a meeting here Tuesday. Candidates for United States senator, two congressmen and state officers are to be put in the primaries for 1924, it has been announced. Whether a presidential candidate also will be named is not known. The seat of United States Senator T. J. Walsh of Helena, Democrat, is to be contested. Walsh is a candidate for re-election. Senator J. W. Anderson of Sidney and W. P. Dunn of Butte are among those signing the convention call. Dunn recently was ousted from the national convention of the American Federation of Labor at Portland, Ore.

Other signers for the third party meeting call include legislators, labor leaders, and former Nonpartisan league men.

MORE REASON FOR SPENDING TIME OUTDOORS THIS FALL

Some of the loveliest days of the year come after the heat of the summer is done and the colors come to roset on the trees. Days cool and invigorating that bring out as many new clothes as there are moters on the roads and crowds at the football games.

Because the new fall coat is the most important purchase to be made right now, here is a drawing of two of the smartest ones. Sport coats they are, but with a sporty style and distinction that make the sport coats of other seasons appear drab and uninteresting.

There is the plaid, a little bolder and more vivacious than any that have gone before. It has the becoming flare that comes from an inverted plait loosed a little below the shoulder.

Both coats are belted, both have pockets that are frankly flapped, and lapels that are clearly cut and have fine lines. Apparently trivial details but all important where imperfect tailoring would mar the entire hang and style of a coat.

The two pictured show the effect of care and attention. They will furnish any woman with a legitimate excuse for spending much of her time outdoors this season.

He will go by way of Minneapolis, Minn., where he will stop to visit his brother, Frank Harris, and then go to Houston, Texas, and from there to his home in California.

P. E. O. GUEST DAY

Guest day was observed yesterday by the local P. E. O. Sisterhood when they entertained members of the Mandan chapter at the home of Mrs. N. O. Kassestad. Twelve Mandan ladies were present. MORE CELERY COMBINATIONS

CELERY makes a very pretty garnish when curled. Cut it in two-inch lengths with a sharp knife; beginning at the outside of the stalk, make fine cuts to the center, leaving a bit to hold the spiral together; turn the other end of the stalk and cut in the same way. Drop the pieces thus shredded into ice-cold water and in an hour they will be curled. These curled pieces may be used in salads with other vegetables or fruits, or they may be used as a garnish for a dish.

Washed Potatoes With Celery.—Melt one and one-half tablespoons of butter over a moderate fire; put in one cupful of finely chopped celery; cook for fifteen minutes, stirring occasionally; then add two cupfuls of cold boiled potatoes finely chopped and cook until slightly colored. When nearly done season with salt and pepper and serve sprinkled with chopped parsley.

Scrambled Eggs With Celery.—Melt one tablespoonful of butter; add four tablespoonfuls of chopped celery; cook slowly for fifteen minutes; add four eggs and mix until set; season well and serve at once.

Baked Celery With Cheese.—To two cupfuls of celery, cooked until tender, cut in inch pieces, prepare one cupful of white sauce and dice one cupful of good, snappy cheese. In a baking dish put a layer of celery; cover with a layer of cheese, then the cheese with a layer of white sauce. Repeat, using the celery with white sauce covered with buttered crumbs. Put into the oven long enough to brown the crumbs and thoroughly heat the dish. Overcooking will toughen the cheese and make it stringy, unattractive and hard to digest.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

RESOLUTIONS OF THE LEGION
The resolutions adopted by the national convention of the American Legion at San Francisco, as might be expected, are worthy of the organization.

The Legion's "Americanism" resolution asked maintenance of the American fleet in accordance with the 5-5-3 ratio agreed upon at the Washington conference. The Legion asked development of the merchant marine, the air forces, adequate preparations for national defense, complete rehabilitation and hospitalizing for disabled veterans and tightening of certain restriction on immigration.

With the memory of the World War not yet dimmed, the Legion does well to speak with force in behalf of sane preparations for the national defense. Until the day comes when limitation agreements such as that of the Washington conference called by the late President Harding affect all branches of military service, it is plain that the United States must be prepared to speak to a troubled world with the authority conferred by power to enforce just demands.

In spite of the effort to break down the immigration limitation policy now pursued by the country and although there are its attending such a policy, the wide-spread illiteracy, lack of respect for law and failing appreciation of the fundamentals of American government argue strongly for the continuance of a policy which will insure to America the benefit of the best immigration possible to aid in the building of the nation.

The Legion did not mention any organizations. It did say, very plainly, that "we consider any individual, group of individuals or organization which creates or fosters racial, religious or class-strife among our people or which takes into their own hands the enforcement of law, determination of guilt or infliction of punishment to be un-American, a menace to our liberties and destructive of our fundamental law."

To those who question the resolution the Legion may answer that if the shoe fits, wear it. No great organization can condone any force, whatever its name or purpose may be, which imperils the foundation of the government.

WHAT YOU LIKE

A New York clerk is sent to the penitentiary for the fourth time and for the same old offense—stealing dictionaries. His fourth attempt to increase his vocabulary took place in a department store where he saw the king-pin of dictionaries—\$13.50, which, being a clerk of modest means, he couldn't afford.

You will read a good many days before you find anything stranger than this in the news.

Three times he had stolen dictionaries and gone to prison for it. You'd think he had learned his lesson. Not so.

Back he came a fourth time. Here you see the workings of a curious brain kink or abnormality that is also characteristic of the chronic criminal. What most of them need is expert medical attention by brain specialists.

Off to prison the fourth time, the old man (he's 75, with white hair) who can't resist dictionaries, boasts that his vocabulary now includes 100,000 words. The reporter describes him as having a "scholarly brow."

Too bad some rich man didn't catch him early in the game and "cure" him by giving him all new dictionaries as fast as they came from the presses.

Difficult to understand him and his peculiar craving? Well, after all, isn't it just as sane as some of the cravings the rest of us have? We know many a man who is "crazier" about golf, salted peanuts or a collection of canceled stamps than this pitiful old character braving jail in his quest for knowledge.

FISHES' DESTINY

Fish, buried in vast quantities millions of years ago by volcanic upheavals, gradually turned into the petroleum which the oil men now take out of the earth's depths. This is the theory of Dr. John M. MacFarlane, distinguished geologist, after 50 years of study.

It required millions of years for nature to form the oil, coal and minerals which man in effect is consuming in a few centuries. An interesting time is ahead for our descendants when natural resources will be exhausted. Far off, yet a short time compared with the ages devoted to preparation.

"CONSCIOUS DESIRE"

Drugless doctors, holding a convention, see three children whose parents claim that the sex and vocation of each child was determined before birth by the "conscious desire" of the parents.

We take it that "conscious desire" is a form of will power.

There will be an answer, and a loud one, from parents who emphatically wanted a boy and got a girl, or vice versa.

SUN'S POWER

Man harnessing and using more than one-thousand-millionth part of the energy that rushes to our earth from the sun according to Sir Oliver Lodge.

Admittedly, this is true. But what's the use of harnessing the rest of it? If we believed the Big Talkers, happiness is a matter of horsepower. Maybe we'd be happier if we harnessed less instead of more.

FALE PORTRAYAL

The "hick" farmer as portrayed on stage and in movies no longer exists. He should be replaced by a real modern farmer—business man owning an auto and the latest farm machinery. So urges the publicity staff of American Farm Bureau Federation.

While they're at it, they might correct the former's notion of the modern city man, just as false as the stage farmer.

ADVENTURE OF THE TWINS

By Olive Roberts Barton

"Well!" said Farmer Brown one day as he was through the cornfield. "It's getting pretty late in the fall and I think this corn is dry enough for husking. Tomorrow I'll hitch Charlie and Bob to the big wagon and we'll take down the cornshocks and haul the corn in. Then I'll invite all my neighbors over and we'll have a husking-bee and my wife will have cider and doughnuts for them."

Farmer Brown was talking to himself, but three pairs of sharp little ears heard every word he said. Nancy looked sad. "If Farmer Brown takes away all the cornshocks, he'll take your house, too," she said, "and where will you live this winter, Mister Dodger?"

"Why, I'll go and rest for a spell," answered the little fairy fellow cheerily. "I'll go back to the Fairies' Hotel in Fairyland where most of the fairies stay when they are working. Haven't you seen my friends for a long time and it'll do me good to have a good visit with Mister Tatters and Mister Sky-Bow and Mister Tingaling and Mister Scribble Scratch and all the others I haven't seen for so long."

"But what will the 'Squeaky-Moo' people do without you?" asked Nick. "Will they be safe?"

"Sure!" answered the little fairy man, stuffing his old corn-cob pipe into his pocket. "It's only when they are out of doors they need to be looked after so much. When they are indoors, as they will have to be mostly from now on, they are safe. Crazy Calf can't eat poison weeds, and Prisky Colt can't squeeze through the orchard fence and make himself sick on sweet apples. And Mister Hawk has gone south in the winter, I guess, for I haven't seen him lately; so the chickens and ducks won't be in danger, either."

"Well, if you go, we'll go, too," declared Nancy. "I mean we can't stay in Squeaky Moo Land by ourselves."

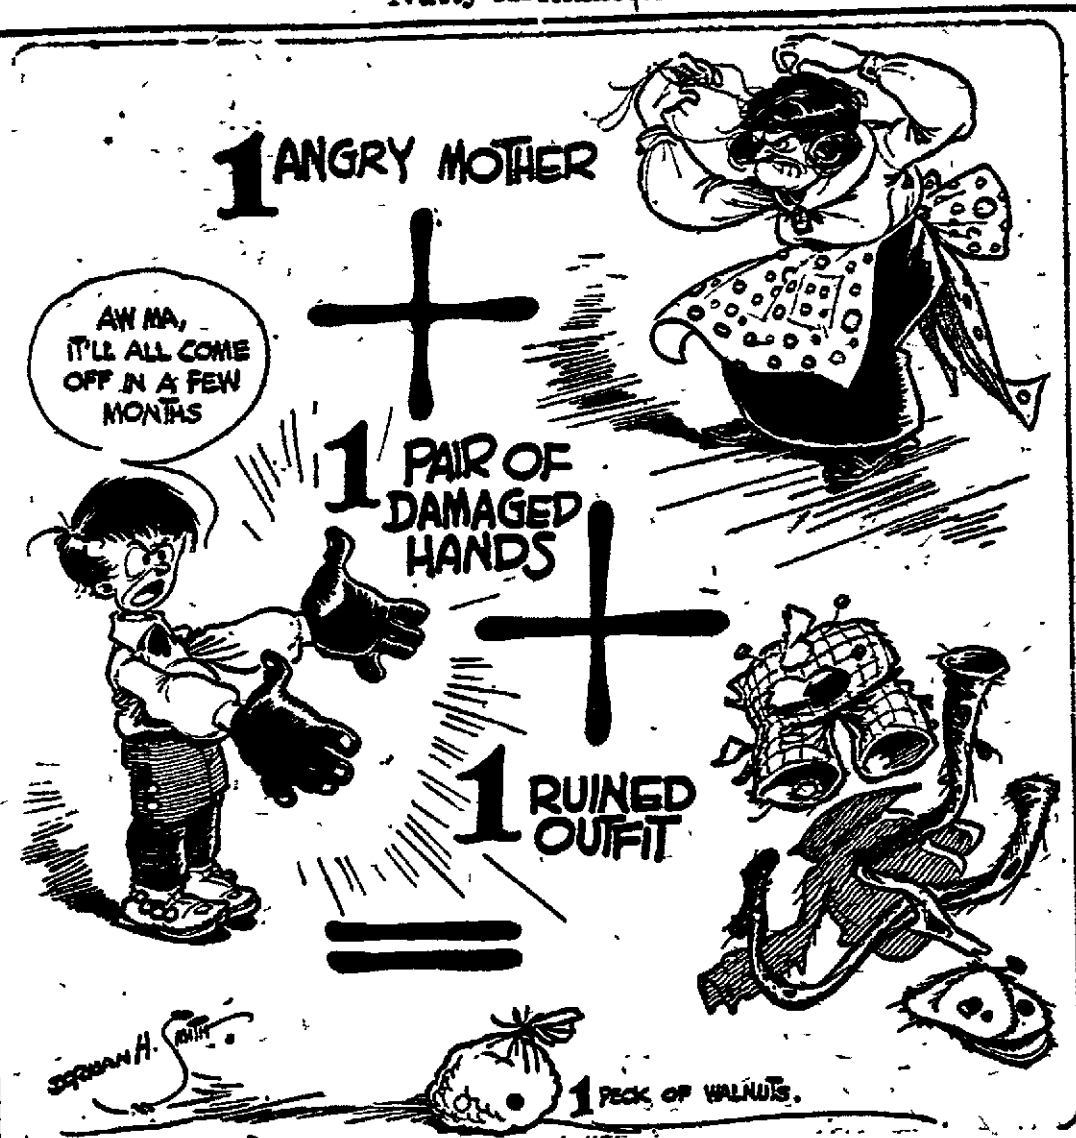

"I was just coming to that," nodded Mister Dodger with a mysterious smile. "All useful people are never out of one another's minds."

He reached into his pocket and pulled out a letter. "I found this on the table when I came in today," he said, "and I thought it might have brought it while we were out."

It was addressed to the Twins, and read:

"Dear Twins: 'Please come to my palace at noon

Natty Arithmetic

as you get this, I want you to go south to Dixie Land.

Lovingly yours,

"The Fairy Queen."

"I told you so!" said Mister Dodger. "Come! We'll say goodbye to our friends here and be going."

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, CONTINUED.

I never will be able to understand, dear little Marquise, what malignant fairy made me tell Mr. Cocoran that Karl has given me the pearls. The moment the words were out I would have given anything if I could have taken them back. But, alas, words spoken are of the few things in this world that cannot be taken back or changed or made over. They must stand and we must stand by them.

I could hardly confess to Mr. Cocoran that I had told him a lie especially as seemingly I had no excuse for doing it, and having told him the lie I, of course, had to bring something to back it up.

Down in my heart I didn't believe that Mr. Cocoran thought I was telling the truth and quickly my brain tried to form a plan by which I could make him think that a young man, even as rich as Karl, would give me as beautiful a present as the pearls.

After a little hesitation I said, "You know, Karl Whitney and I have been like brother and sister all our lives. Ever since I was a little girl and admired pearls in a shop window Karl said to me he would give me a pearl necklace when I married. I am sure that neither he nor I had any idea what that promise entailed as neither of us knew the value of the milky white jewels. But when I married, as you see, he kept his childish promise."

"Of course, Leslie," said Mr. Cocoran. "I have no idea what pearls of this kind cost, but I imagine they are very expensive. Does your mother know about this?"

"Oh yes," I answered. "Karl has also given Alice a string since she went to England. You don't think I

would take them if she hadn't approved, do you?"

Again I was some evil spirit speaking through my lips, for certainly I should never have allowed Mr. Cocoran to think that my dear mother would do such a thing.

Mr. Cocoran, however, seemed to think if mother approved it was all right. He said no more, but gave me a note to a friend of his who was a jeweler broken and I got out of his office as soon as possible.

When I told the man my business and showed him my pearls, it seemed to me he was greatly astonished.

"My dear young lady," he said after a little examination, "do you realize what these beads, as you call them, are worth today?"

"I have no idea of their value," I said, "but I would like to sell you three or four of them if Mr. Cocoran said that you would deal honestly with me."

"Of course I will, and as it happens I have a patron who is collecting stones of this size. In fact, he has been collecting them for years."

"How much will you give me for the three?"

"I cannot afford to give you over three thousand dollars apiece for them," he said.

MANDAN NEWS

Kubisiak-Reidinger Join in Marriage

The marriage of Miss Audenia, Reidinger, daughter of Mr. and Mrs. Joseph Reidinger, became the bride of Stephan Kubisiak of Wisconsin Rapids, Wis., yesterday at St. Joseph's church. They were attended by Miss Elizabeth Heckel and Paul Reidinger. Miss Isabelle Reidinger, sister of the bride acted as flower girl. Father Clemens officiated at the ceremony.

The bride was dressed in a pale pink wedding gown with wreath and veil to match and carried a bouquet of lilies of the valley and carnations. The bridesmaid was dressed in orchid with a picture hat and also carried a bouquet of lilies of the valley and carnations.

Following the ceremony a wedding breakfast was served at the home of the bride's parents to which the immediate relatives and a number of friends attended.

Mrs. Kubisiak graduated from the local schools and for the past two years has been employed as bookkeeper at the Merchants National bank. Mr. Kubisiak has been in the employ of the Northern Pacific here but plans to return to Wisconsin soon where they will make their home. They left for eastern cities for a short honeymoon.

Mandan will see the scene of a preliminary International Hay and Corn show next week according to Secretary E. A. Ketter of the Morton County Commercial Club. The show will be held at Mandan the week of Oct. 2 to Nov. 3 inclusive and will be for the purpose of getting corn and hay samples for exhibit at the International Hay and Grain show which is to be held in Chicago in December.

Mrs. Martin W. Rose, who was here to attend the funeral of her mother, Mrs. Flora Adams, has left for her home in Portland, Ore. Mrs. Rose, formerly Miss Mamie Adams is the wife of Dr. Rose, a prominent physician of Portland.

WORLD'S GREATEST BANKING SYSTEM

By CRAIG B. HAZLEWOOD, President Association of Reserve City Bankers

Conceived in the spirit of common good, for the best interests of government, banks and public alike, based on broad and correct principles relating to the nation's currency and credit, the Federal Reserve System represents the greatest piece of economic legislation enacted by an American Congress.

The System's record of achievement through a world war, an inflation period of dizzy heights, and months of serious and costly liquidation. It is a matter of greatest importance that very earnest and patriotic thought be given to the two questions: How far has the system succeeded, and in what particular has it failed, to give our country as strong and as useful a financial system as human mind can devise?

The hope and expectation of those who framed the Federal Reserve Act—that the machinery set up for the origination, distribution and automatic retirement of currency issue, which should be entirely responsive to the needs of trade and the varying conditions of business, have been wonderfully well realized. Every possible effort must be exerted to preserve the Federal Reserve System from political alliance and to keep its powerful influence entirely devoted to the building up of the greatest banking system in the world.

The first bank of the United States was established in 1791 and failed to obtain a renewal of its charter in 1811. The opponents charging that the bank was a "money trust" controlled by foreigners, and that the act chartering the bank was unconstitutional. Note the use of the words "money trust." We have the idea that this is a modern term. The suspicious which animate the demagogue today have not changed in a century.

The second bank of the United States was chartered in 1816 and failed to obtain a renewal of its charter in 1831, the reasons being a widespread belief that the bank was unconstitutional, the hostility of the states, the opposition of the state banks, the rise of democracy, and the envy and hatred of the rich.

Both banks functioned well and accomplished much for the country during their existence. The

downfall of both was caused simply and solely by attempts to place the determination of banking policies in the hands of political authorities.

The delicate handling of currency and credit, to the high and that the best interests of all may be served with special privileges to none, cannot be left to others than those who are competent through proven judgment and experience. The danger of politics in the Federal Reserve System is a real one; upon us is placed the grave responsibility of forever keeping the great system clean.

MAKING CAPITALISTS OUT OF WORKMEN

Festus J. Wade Says Anarchy Disappears With the Development of Thrift.

When the savings pass-book comes into a man's life to stay the red flag goes out. What the country needs is to bring about a condition whereby the man who works with his hands shall take the same interest in his affairs as the capitalist does in his. Probably the best way to do this would be to turn the workman into a capitalist. And this is exactly what he becomes when he saves his money and builds up a reserve fund. He remains a capitalist as long as he has money on that money. The satisfaction of seeing his money reserve mount up will discourage the wasteful to take a layoff now and then. It will encourage him to work a full six-day week and thereby increase the labor hours applied to production.

The American people can solve any problem they set themselves to. We provided for a sound currency when the greenbackers and inflationists were routed and the gold basis established. The Federal Reserve Bank was established and solved a problem for which most people thought there was no solution. A number of years ago, when there was a crisis, when a bank failed, we all used to shut up our vaults tight and let nothing get out. Instead of bettering conditions we made them worse. Now if failures occur few people, except those directly interested, are disturbed.

Perhaps the most important problem of all right now is to do away with labor waste. It never can be done by preaching, by agitation or by force. It can be done by selling the workman on the idea of becoming a capitalist. This can be brought about by the right kind of bank advertising. Who is there to say that an advertising dollar bringing about this result would not be a constructive dollar?

—Festus J. Wade.

Farmer-Labor Party Is Plan

Great Falls, Mont., October 23.—The Farmer-Labor party in Montana is to be formed at a meeting here today. Candidates for United States senators, two congressmen and state officers are to be put in the primaries for 1924, it has been announced. Whether a presidential candidate also will be named is not known. The seat of United States Senator T. J. Walsh, a Republican, is to be contested. Walsh is a candidate for re-election. Senator J. W. Anderson of Sidney and W. F. Dunn of Butte are among those signing the convention call. Dunn recently was ousted from the national convention of the American Federation of Labor at Portland, Ore.

Other signers for the third party meeting will include legislators, labor leaders and former Nonpartisan league men.

NOTICE OF HEARING FOR CONDEMNATION STATE OF NORTH DAKOTA, County of Burleigh—ss. In District Court, Fourth Judicial District. In the Matter of the Order of the Fire Marshal, in and for the State of North Dakota, to the following described premises, to-wit: Dwelling house situated on Lot 25, Block 64, McKean and Coffin Addition to the City of Bismarck, Burleigh County, N. Dak. Owners Clara Ullum, 2450 Bellfontaine St., Bismarck, N. Dak. and Clara E. Ullum, Rosalie Pettit and Goldys M. Robatham, Defendants. The State of North Dakota to the above Named Defendants: You are hereby notified, that the Fire Marshal, in and for the State of North Dakota, has filed in this Court a petition for a judgment, enforcing the terms of the order of the Fire Marshal, issued against the premises described, and now on file in the office of the Clerk of the District Court of Burleigh County, State of North Dakota, a copy of which is herewith attached, marked Exhibit "A", and to state your objections, if any there be, to the said order, in writing, and serve a copy of the same upon the undersigned within twenty days after the service of this notice upon you, exclusive of the day of service; and, in case of your failure to appear or object in writing, judgment will be entered against the said premises by default, and an order of condemnation issued in accordance therewith. Dated this 19th day of June, 1923. GEO. F. SEAFER, Attorney General. 10-23-30-11-6-13-20-27

The Tomb of Cyrus. In a remarkable ruin, in a col- legible state of preservation, at Pasargadae in ancient Baby-lonia, is the tomb of Cyrus. It has been called "a house upon a pedestal," and consists of a pyramidal base constructed of huge blocks of white marble, surrounded by a house of the same material, covered with a sloping stone roof. The interior consists of a small chamber, ten feet long, seven feet wide and eight feet high, entered by a low and narrow door; there was a wall in a golden color, the body of the great conqueror. It is supposed that a row of 24 columns (some of whose broken shafts still remain) inclosed the sacred spot. On these mutilated columns is repeatedly found the inscription (written in Persian and in the so-called Median): "I am Cyrus the King, the Achaemenian."

CHENILLE ON HAT. Chenille embroidery in colors shading from pink to deepest rose covers the crown and the upper part of the brim of a black velvet picture hat. Read Tribune Want Ads.

OUT OUR WAY

SOME PEOPLE CAN KID THE OLD CROSSING WATCHMAN AND GET AWAY WITH IT, BUT THAT RURAL MAILMAN ISN'T ONE OF THEM.

GREEN AND BLACK. Some of the most lovely lingerie recently displayed is of green georgette trimmed with black shadow lace and black ribbon.

YELLOW AND BLUE. With a plain little frock of navy blue are trimmings of bright yellow braid and a canary colored felt cloche.

OSIRIS PLUMES. The long drooping ostrich plume is coming back into favor this fall, especially of the small, close-fitting hat for afternoon wear.

CITATION HEARING PETITION FOR APPOINTMENT OF ADMINISTRATOR

STATE OF NORTH DAKOTA, County of Burleigh—ss. In County Court, Before Hon. J. C. Davies, Judge, this 22nd day of October, A. D. 1923, the Matter of the Estate of Emory Clark, Deceased.

Josephine E. Lundin, Petitioner, vs. Kittie McClellan and Lillian Garbutt and all other persons interested in said estate, Respondents.

The State of North Dakota to the Above Named Respondents and All Persons Interested in the Estate of Emory Clark, Deceased:

You and each of you are hereby notified that Josephine E. Lundin, the petitioner herein, has filed in this Court a petition, praying that letters of administration upon the estate of said Emory Clark, late of the Township of Naughton, in the County of Burleigh and State of North Dakota, deceased, be granted to R. L. Best of Bismarck, North Dakota, and that said petition will be heard and duly considered by this Court on Saturday, the first day of December, A. D. 1923, at 10 o'clock in the forenoon of that day, at the Court House, in the City of Bismarck, County of Burleigh, and State of North Dakota, and you, and each of you, are hereby cited to appear before this Court at said time and place, and answer said petition, and show cause, if any there be, why the prayer of said petition should not be granted.

By the Court: (SEAL)

J. C. DAVIES, Judge of the County Court. Dated the 22nd day of October, A. D. 1923.

Let the service of the above cited petition be made by publication thereof in the Bismarck Daily Tribune, a newspaper published at Bismarck in said Burleigh County, three times, once each week for three successive weeks, all not less than twenty days before said hearing.

Dated October 22nd, 1923. (SEAL)

J. C. DAVIES, Judge of the County Court. F. H. REGISTER, Attorney for Petitioner. Bismarck, North Dakota. 10-23-30-11-6

H. L. READE, Fire Marshal, Office of Fire Marshal, State of North Dakota, Bismarck.

In the matter of the following described premises, to-wit: Dwelling house situated on Lot 26, Block 64, McKenzie and Coffin Addition to the City of Bismarck, Burleigh County, N. Dak. Owners, Clara Ullum, 2400 Bellfontaine St., Indianapolis, Ind.; Clarence B. Ullum, Rosalie Pettit and Goldy M. Robatham.

Order for Removal or Repair of Building.

The above entitled matter having come on for hearing before H. L. Reade, the duly appointed, qualified and acting Fire Marshal, in and for the State of North Dakota, on the 28th day of April, 1923, at the City of Bismarck, State of North Dakota, and after a consideration of the evidence submitted, the complaints made, the testimony produced, and after a full, complete and satisfactory investigation of the premises described premises being had, findings with respect thereto are made as follows, to-wit: This property is in a dilapidated condition, being vacant for years. Doors and windows gone, floor broken through and rooms are littered with refuse, weeds and excelsior and other inflammable material.

Now, Therefore, It is Ordered that you, Clara Ullum, Clarence B. Ullum, Rosalie Pettit and Goldy M. Robatham, tear down or remove this building, situated as above described, forthwith, or within 30 days from the date of this order and notify the undersigned Fire Marshal at Bismarck, N. D. when this order has been complied with, and it is commanded under and by virtue of the provisions of Sections 206 and 207, Compiled Laws 1913, and Senate Bill 147, Laws of 1919, that the requirements of this order be in all things complied with.

Dated at Bismarck, North Dakota, this 28th day of April, 1923. H. L. READE, Fire Marshal.

NOTICE OF HEARING FOR CONDEMNATION

STATE OF NORTH DAKOTA, County of Burleigh—ss. In District Court, Fourth Judicial District.

In the Matter of the Order of the Fire Marshal concerning the following described premises, to-wit: Dwelling house situated on Lot 26, Block 64, McKenzie and Coffin Addition to the City of Bismarck, Burleigh County, N. D.

State of North Dakota, ex rel. George F. Shafer, Plaintiff, vs. Clara Ullum, Clarence B. Ullum, Rosalie Pettit and Goldy M. Robatham, Defendants.

The State of North Dakota to the Above Named Defendants:

You are hereby notified that the Fire Marshal will apply to the court in the above entitled proceeding for a judgment, enforcing the terms of the order of the Fire Marshal, issued against the premises above described, now on file in the office of the Clerk of the District Court of Burleigh County, State of North Dakota, a copy of which is hereto attached, and marked Exhibit "A", and to state your objections, if any there be, to the said order, in writing, and serve a copy of the same upon the undersigned within twenty days after the service of this notice upon you, exclusive of the day of service; and, in case of your failure to appear or object in writing, judgment will be entered against the said premises by default, and an order of condemnation issued in accordance therewith.

Dated this 19th day of June, 1923. GEO. F. SHAFER, Attorney General. 10-23-30-11-6-13-20-27

'DEMONS' MEET ACID TEST IN MANDAN GAME

Visitors to be in Better Shape and Locals Have Hard Task To Take Victory

NEW PLAYS PLANNED

The "Demons" of Bismarck high will face the acid test Saturday. Mandan comes for a second game with the local high school football eleven, with the southwestern district championship as the prize.

It will be the big game of the season, and perhaps the last on the Bismarck gridiron this year. The local team nosed out a victory over Mandan, 13 to 7, two weeks ago. Mandan has two of the best men on her team out of the game and others in poor shape. The remarkable offensive spurt during the third quarter of the game across the river was stamped the team as one to be feared at all times.

Reports from Mandan say that the visitors will be in perfect condition when they meet Bismarck here Saturday. Some new plays in which Mandan's exceptionally fast backfield team will be given an opportunity for spectacular open field running are understood to have been developed.

Bear stories came out of the camp of the "Demons" today. The local team hasn't improved quite as fast as Coach Houser expected, and the team is slated for a hard, steady workout all this week to get in shape. If the team is off-color it is feared Mandan may slip over a victory and take the coveted championship prize with its chance for the state title.

Capt. Benzer will lead the Bismarck team again Saturday. The game will be called at 3:30 p. m. on the local gridiron. Upshaw of Jamestown has been chosen to referee the contest.

Benzer's work has been an outstanding feature of the Bismarck line play this year. He has a husky physique and he has learned a lot of football since last year. A defense play has improved greatly.

With both the Bismarck and Mandan team carefully coached, and with Saturday the last game except for the district games, both teams will be showing everything they have. A spectacular game, with a lot of open-field work and trick plays, is looked for.

Bismarck high school students already are planning for the game, and they hope the people of the town, business men, women, others, will join in to support the locals. Mandan is planning to send a great crowd here.

ZEY, MY OWN RACE NOV. 3

New York, Oct. 23.—Zey, international three year old champion as a result of its decisive victory Saturday over Papyrus in the English derby winner, will settle his rivalry with My Own for American honors in the Latonia championship at Lexington, Ky., November 3, unless present plans go astray.

Samuel C. Hildreth, trainer of Zey, announced that the Rancocas colt would be shipped to Latonia next week for the big stake and as Rear Admiral Carl Grayson, owner of My Own, said, it seemed assured that these two thoroughbreds would settle their disputed question of supremacy.

ORIOLES TAKE GAME, 10 TO 9

Baltimore, Oct. 23.—The Orioles prolonged the little world series by winning the seventh game from Kansas city yesterday afternoon, 10 to 9. The runs behind when they came in in the final bats, the Blues flashed a five-run rally, tying the game, and knocking Lefty Groves out of the rubber. Tommy Thomas, who had been the rescue and stopper, made a play after allowing one run.

HOLIDAY WHEN THE BABE COMES

St. Paul, Oct. 23.—Mrs. Wesley Pearson of Jamestown was killed near Aberdeen when the Dodge car in which she and her husband were enroute to Huron, turned over on the Sunshine highway seven miles north of Aberdeen.

THE MULTIPLE KICK

It's All Right if Your Line Holds in Pinch

The multiple kick is back. It is being used by Rutgers College this year. It was at Rutgers that the multiple kick—the most accurately timed and executed placement kick known to the game—was conceived. This picture shows how the kick is worked. The center snaps the ball to the quarter who then ad-justs it between the wadded finger tips of two players lying prone facing each other. The kicker then takes two steps forward and boots the ball over. The virtue of the kick lies in the accurate results obtained. It is not so much of a slam-bang proposition as the direct pass and kick. No team with a weak set of forwards has any business monkeying with the multiple kick.

ROBERTSON AGAIN CHAMP AT TENNIS

Retains City Championship on Country Club Courts by Victory Over Sorlein

C. L. Robertson is the city tennis champion again for 1923. He retained his title in the final rounds of the tournament, which has been in progress over a period of three weeks, on the courts of the Bismarck Town and Country club. Robertson defeated L. C. Sorlein in the final match, 3-6, 6-2, 6-0, 6-3.

Sorlein and R. E. Morris defeated Leonard and Boister in the final match for the doubles championship, 6-2, 6-4, 6-2.

In the first round of the play, Sorlein defeated C. S. Haines by default, G. H. Russ defeated Paul Reigister 6-3, 6-2, 7-5. Page beat Gene Leonard 6-0, 6-0; Beecher Stair beat C. A. Marr by default; R. E. Wenzel trimmed L. Lillestrand, 6-1, 6-1, and C. E. Robertson won from J. H. Kling, 6-0, 6-1.

In the second round, Sorlein defeated R. E. Morris, 6-2, 11-9; Russ defeated Page, 6-3, 7-5; Wenzel eliminated Stair, 6-1, 6-1; Robertson won from R. B. Webb, 6-2, 6-0.

In the third round, Sorlein defeated Russ, 9-7, 6-3; Robertson beat Wenzel, 3-6, 6-4, 6-1.

The finals match between Robertson and Sorlein in which the former retained the championship was exciting from start to finish and was hard fought throughout.

INSTANTLY KILLED

Jamestown, Oct. 23.—Mrs. Wesley Pearson of Jamestown was killed near Aberdeen when the Dodge car in which she and her husband were enroute to Huron, turned over on the Sunshine highway seven miles north of Aberdeen.

Mrs. Pearson was about 35 years old, and there was no children. Mr. Pearson is a brakeman on the N. P. Ry. Co.

A Diamond Mine for You

Certain South African farmers were poverty stricken. They said the soil was too rocky to plow. They complained that their children were in rags—that they had to play with pebbles instead of toys.

The pebbles were diamonds! But the farmers didn't know. Many of them died poor.

Don't be like the South African farmers! Don't seek opportunity in some distant place and overlook the wealth that is daily within your grasp.

Advertising points out values you would probably overlook if it were not there to tell you. No other one thing will give you such economy and keen satisfaction in your every-day buying.

Excitement of Latin Countries
Cools Down Quickly After
Coup d'Etat

AMUSEMENTS POPULAR

Government Workers Fall
Over Each Other in Search-
ing For Their Offices

Madrid, Oct. 23.—The public pulse of Latin countries is beating true to form in Spain. The government has been overthrown by a coup d'etat, yet the excitement soon was over and today the mind of the crowd is busy as ever with its distractions and pleasures.

The cafes are crowded, and one can rarely find an empty seat at the outdoor tables. Bull fights are to the fore, and will continue to attract crowds until the weather breaks. A roulette table, it is rumored, is to be installed at the Ice Palace, by permission of the dictator, Primo Rivera, who is said to be not insensible to the attraction of the game. The well-to-do residents of Madrid have begun their exodus from San Sebastian, returning to the capital as fast as the limited train service can bring them.

Probably nothing has caused as much excited comment and speculation as the famous decree, the purpose of which is to make government employees do some work. It has been a veritable bombshell. It requires that all such men report at nine in the morning and be on duty until two in the afternoon. As a result the government buildings are overrun with strangers, stumbling over each other, asking where their offices are located, and when they find them, wondering what to do. A caricaturist suggests that concentration camps be established.

Ornaments To Business
Thousands of government officials, in the enjoyment of a mere pittance, learned in the past how to reduce their output of energy to a minimum, often not exceeding the mere act of signing the monthly pay sheet. Thousands more by means of an occasional "act of presence," as it is picturesquely called, in various departments managed to derive a multiplicity of incomes from as many sources. Under this system sinecures for the relatives of cabinet ministers, down to the most distant degree, were easy to obtain and by a series of compromises often maintained while the party was out of office. Room on every pay sheet was found for a host of party supporters.

One particular instance, much commented upon, is worth mentioning. The hero, a man known in his proper sphere of operations as a journalist, plying a party pen, had recently progressed so rapidly in his departmental connections that he might, but for his dismissal, now be faced with the problem of daily attendance in fifteen different offices, from all of which he drew an unearned salary. Another journalist's monthly pay had for many years been accounted for as "fodder for a mule."

The new decree has not spared those in high stations of life, and as a display of Draconian justice the initial act of Millan de Priego who, on taking over the duties of the home office, dismissed his own brother from a sinecure in the post office, calls for a tribute of respect. General Weyler's son has almost a post believed to be especially lucrative.

SERIOUS BLADDER TROUBLE.
"Could not stand nor sit and was forced to cry out from intense pain," writes Henry Williams, Tarkie, Montana. "The doctors said I had inflammation of the bladder and an operation was necessary. Tried Foley Kidney Pills and improved at once. Tell all my friends about Foley Kidney Pills as it will save many from suffering and perhaps, as in my case, a dangerous operation." Bladder and kidney trouble demand prompt treatment. Foley Kidney Pills give quick relief.

FLOOD CONTROL REPORT MADE IN BOOKLET

Flood Control Engineer Hard
Tells of Plans to Prevent
Disastrous Floods

COOPERATES WITH U. S.

The first volume of the Second Biennial report of the North Dakota State Flood Commission has just been published and is ready for distribution on request. It outlines the plan of flood control adopted by the state and federal government, and which was favorably referred to in the recent order of the United States Supreme Court, on remanding the tri-state damage suit for more evidence on the units of the plan.

It gives the results of the flood detailed surveys of the past three years prosecuted by State Flood Engineer Hard and his staff, with maps, profiles, cost estimates and recommendations on several of the projects required to prevent the recurrence of the disastrous floods of past years.

The book appears in attractive form from the state press, and is profusely illustrated by maps and photographs of projects, sites and flood conditions from Lake Traverse to Pembina and in the valleys of the Sheyenne, Wild Rice, James and other rivers.

The work by the state is being done to meet the terms of the War Department, and the project plans submitted are a part of those required by the Department and will be at once referred to it. When the surveys and state's plans are completed and submitted to the Chief War Engineer, immediately becomes available the special appropriation by Congress of August 1917 to apply in perfecting the plans to his approval. The state's share of the work on the plans is just half done but the recent legislature did not appropriate the sum of \$33,000.00 asked by the Commission to do the half of the planning necessary to get the war Engineers busy.

The book contains a 75 page report on the 5000 Artesian wells of the state and recommends means whereby the rapid decline and loss of the flow may be stopped.

The report can be had by addressing Chief Engineer Herbert A. Hard, Fargo, North Dakota. It is free on receipt of 20 cents, covering packing and mailing of the book.

YOUNG WEDDED COUPLE VANISH ON HONEYMOON

No Word Received For Five
Weeks From Pair Who
Wrote at First Each Day

FATHER IN SEARCH

Cambria, Wis., Oct. 23.—Cambria, a quiet Wisconsin dairy town, has provided the police of two states with a mystery that equals any disappearance of humans in fiction.

Seven weeks ago Abel Jones married the daughter of A. A. Kuehn, local general store keeper. Two days later they left on a honeymoon trip in an automobile. For two weeks a card or letter was received every other day by the bride's father. Then the letters ceased. In five weeks since no word has been received from the young people, no word has been received from anyone who saw them. Investigation made the mystery only more baffling. Seldom have the police been confronted with a case that lacks clues as this one.

Days, then a week and then a month past when Mr. Kuehn decided something must have happened. Fearing foul play he left for the north in his automobile and personally scoured the woods district and the small towns along the way. Distinctly remembering the phrase in his daughter's letter saying they were staying in a hotel at Crystal Falls he drove to that place with the intention of looking for their signatures on the hotel register. On his arrival he inquired the way to the hotel. He found that there had been no hotel in Crystal Falls for over a year, the lone hostelry having burned.

The free camping site was his next destination. Visiting campers being required to file their names with the caretaker, an examination revealed that they had not registered there.

Mr. Kuehn returned to Cambria, hoping that word had come during his absence, but when he arrived he found that the entire community wanted to hear from them what he wanted of them.

Chief of Police Martin of Cambria and Mr. Kuehn last night said they feared the couple may have been murdered. Mr. Kuehn revealed that they had taken a complete camping outfit with them on their trip and that they intended to sleep along the roadway when they were not near a camping site. It is feared that someone killed the young couple while they were asleep and disposed of their bodies.

The bride and groom were well-liked in this community and had no enemies so far as is known. Their wedding was one of the most elaborate in the history of the countryside. Both people grew up in Cambria.

GOVERNOR?

Maybe this good-natured looking gentleman will be Oklahoma's chief executive before long. He's Lieut. Gov. Martin Edward Trapp. He'll automatically take over the reins if Governor Walton is impeached.

Trapp and were sweethearts since school days, their wedding being the culmination of a long romance.

The Essence of Real Brother- hood

SPEAKING editorially, under the caption, "A Hopeful Incident," the Beacon of Wichita, Kansas, in its issue of September 18, says:

"The banquet of the Industrial Relations Organization of the Standard Oil Company (Indiana), reported in yesterday's Beacon, is a fine incident of the growing friendship in industrial relations."

"The most encouraging thing that is happening today in the industrial life of this country is in the new programs of co-operation that are being established between themselves and their employees by great employers. The best industrial plants in the country today are finding their own points of contact with their own men."

"In these new points of contact they are finding the base of that essence of real brotherhood that should exist between the man who labors and the man who employs. This new tendency is the most hopeful thing in the industrial life of America today."

The banquet referred to concluded the Fifth Annual Industrial Conference of the Standard Oil Company (Indiana) inaugurated under the guidance of the Board of Directors.

The Industrial Relations Department of the Standard Oil Company (Indiana) is the crystallization of the plans of the Management for giving its employees a voice in the affairs of the Company, that they might sense the sheer joy that comes with independence, and thereby become better citizens, better husbands, better fathers, and better workmen.

The employee representatives of the Joint General Committee are elected by ballot of the employees. This Committee makes recommendations to the Management on matters pertaining to working and living conditions, hours, wages, safety, housing, athletics and other subjects of immediate interest to the employee.

Out of the 1400 cases which have been submitted to the Management by the Joint General Committees, 93.3% have been approved and made effective.

This exemplifies the spirit of fairness inherent throughout the Standard Oil Company (Indiana) organization.

It is an eloquent manifestation of the harmony prevailing throughout this shirt-sleeved organization of 27,000 men and women.

Through harmony is gained the wholehearted, earnest effort which results in high-speed efficiency. This efficiency has made the Company a leader in the petroleum industry and enables it to render such a superior service to the thirty million people of the Middle West.
